The Journey to a Modern Enterprise

The Journey to a Modern Enterprise is our proven approach to moving customers to Azure. **Oracle on Azure** is an offering which is part of this approach, built from many years' experience of moving customers to the cloud.

What is Oracle On Azure?

In recent years Oracle and Microsoft have forged a strategic partnership making available a vast Oracle ecosystem available for use in Azure. **Oracle on Azure** from **Servent** provides you with a flexible framework for migrating any Oracle workload to Azure to take advantage of this ecosystem ensuring your adoption experience is simplified, optimal and secure.

Our framework to helps you migrate any Oracle workload to Azure. With this offering we simplify the deployment and migration process and enable your journey to use Oracle on Azure in a certified, secure, automated manner.

Our Approach

With Oracle on Azure, we adopt a three-phase approach for migrating to Oracle to Azure, as shown below.

A grid of icons representing various Oracle and Azure services. The icons are arranged in four rows and two columns. The first row contains Oracle Database (cylinder icon) and Oracle Applications (grid icon). The second row contains Oracle Linux (gear icon) and Network Interconnect (network icon). The third row contains Identity Integration (person icon) and Java on Azure (code icon). The fourth row contains WebLogic (brain icon).

Oracle Database Oracle Applications

Oracle Linux Network Interconnect

Identity Integration Java on Azure

WebLogic

Discovery & Assessment

- Understand customer objectives
- Analyse Oracle Environment
- Identify dependencies and MVP
- Establish migration roadmap
- License Assessment

Build & Pilot

- Architect and build target Azure landing zone
- Impact assessment
- Detailed Service Overview and Skills Transfer

Migrate & Optimise

- Migrate workload
- Integration Testing
- Monitoring & Alerting
- Optimise & Enhance

Why **Servent**

We have the skills and experience to help you deploy or migrate your Oracle infrastructure to Azure. Our cloud migration methodologies are built on both Oracle and Microsoft best practices and industry standards. We ensure that you are continually consuming and using Azure securely and in an efficient, cost-conscious manner.

100% Azure Focused

As a leading UK Microsoft Partner and early adopter of Azure, we cover the full breadth of Azure services in depth, due to our 100% laser focus on the Azure platform.

15 Years' Experience

We've been with Azure since the beginning, with 15 years' experience we offer unparalleled expertise and help some of the biggest enterprises in their adoption of the Azure platform.

Enterprise Scale

Our extensive experience with some of the largest enterprise customers enables us to bring enterprise scale thinking to businesses of any size through our Enterprise Cloud approach.

Demystifying the cloud

We work with customers of all shapes and sizes across many industry verticals and help them better understand the Azure platform and how it can transform their Business

Benefits

With **Oracle on Azure**, we will help you leverage your existing investments in Oracle and Microsoft and benefit from the partnership they have forged. We can help you deploy your Oracle solutions to Azure without compromising performance or reliability.

 Seamless Migration & Modernisation

 Performance & Reliability

 Enhanced Monitoring

 Integrated Security & Compliance

Azure Infrastructure for Oracle

Azure helps organisations reduce the complexity of managing Oracle whilst introducing innovation and cost savings. Oracle customers today are typically looking for the right path forward to assess and adopt the latest Oracle solutions while considering their cloud strategy in parallel.

Oracle and Microsoft have tested and certified Azure infrastructure against the same standards as those used for on-premises Oracle infrastructure. Azure offers a low cost and highly scalable deployment option for Oracle workloads. Just some of the Oracle Apps you can move today are as follows:

- E-Business Suite
- JD Edwards EnterpriseOne
- PeopleSoft
- Oracle Retail Applications
- Oracle Hyperion Financial Management

Discovery & Assessment

Servent undertake an in-depth discovery and assessment of your existing Oracle landscapes providing you with a detailed report covering:

- Migration feasibility
- Unified Identity & Access Management options
- Networking options and considerations
- Compute sizing recommendations
- Database sizing recommendations
- Storage sizing and options
- BCDR options and considerations
- License mobility assessment

Build & Pilot

Servent will supply you with:

- Configured Azure Tenant (if required)
- Configured Hybrid Identity Platform (if required)
- Detailed solution architecture for target workload based on findings from the Discovery & Assessment phase
- Landing Zone for target workload

Migrate & Optimise

We ensure a smooth transition to Azure with our comprehensive migration and optimisation services. We manage the entire workload migration process, conduct thorough integration testing, and secure end-user acceptance. Our team continuously monitors and alerts on system performance, while proactively optimising and enhancing your platform for maximum efficiency and reliability.

- Workload migration
- End User acceptance
- Integration Testing
- Monitoring & Alerting
- Platform optimisation & improvement

Automation

We help you make the most of Azure & Oracle by introducing tools and processes that promote smarter working, such as configuration management, DevOps and automation, capabilities available with the Azure platform.

Training & Knowledge Transfer

The benefits of consuming cloud services will only be realised if the those supporting the platform are sufficiently skilled. We will work with you every step of the way to ensure that you have the right blend of knowledge and skills to support your **Oracle on Azure** investment.
