

Enterprise Room Connector - Premium

Enable your hybrid work strategy

Pexip delivers a seamless Microsoft Teams-like experience on existing meeting room video conference equipment removing a major blocker to organizations hybrid work strategy.

Easy to manage

Easy to join

Always connect

Teams-like user experience

CHALLENGES

If your organization has invested in standards-based video conferencing systems from the likes of Cisco and Poly, you'll need an interoperability solution to bring those devices into Microsoft Teams meetings.

Otherwise, you risk stranding valuable assets and frustrating users.

IDEAL SOLUTION

Enable everyone to seamlessly join Microsoft Teams meetings, from existing conference room devices while preserving business critical workflows.

DESIRED OUTCOMES

Pexip's Enterprise Room Connector bridges the gaps between modern video meeting platforms and existing meeting room infrastructure to create a unified workflow.

- Ensures customers can always connect to meetings with their existing hardware
- Simplifies customers journey to consolidate all meetings on Microsoft Teams

Enterprise Room Connector

Pexip has helped organizations around the world modernize their video conferencing infrastructure to save money and provide a simple, intuitive meeting experience for users.

1

SUPERIOR USER EXPERIENCE

Pexip provides the most Teams centric experience for existing video conference equipment helping drive Teams adoption

2

BEST CLOUD VIDEO INTEROP (CVI)

Pexip is the only vendor solely focused on interoperability enabling customers digitization strategy

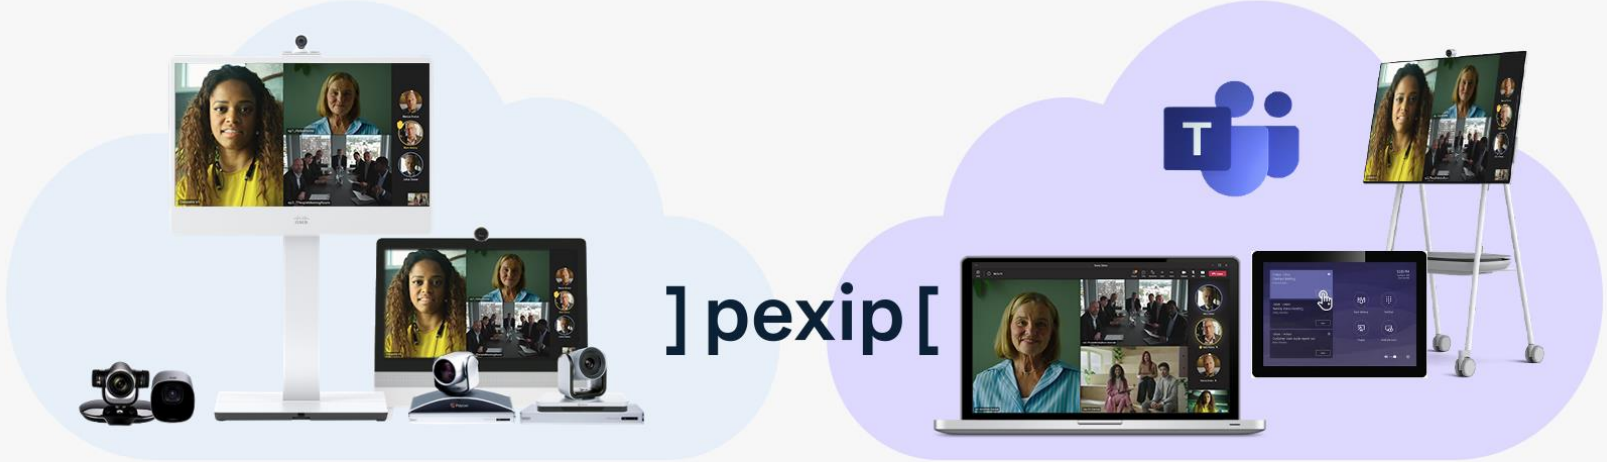

3

SUSTAINABLE CHOICE

With Pexip, every traditional VTC using SIP or H.323 standards will be turned into a modern user experience, enabling companies to reduce their E-waste and transition to newer devices at their own pace.

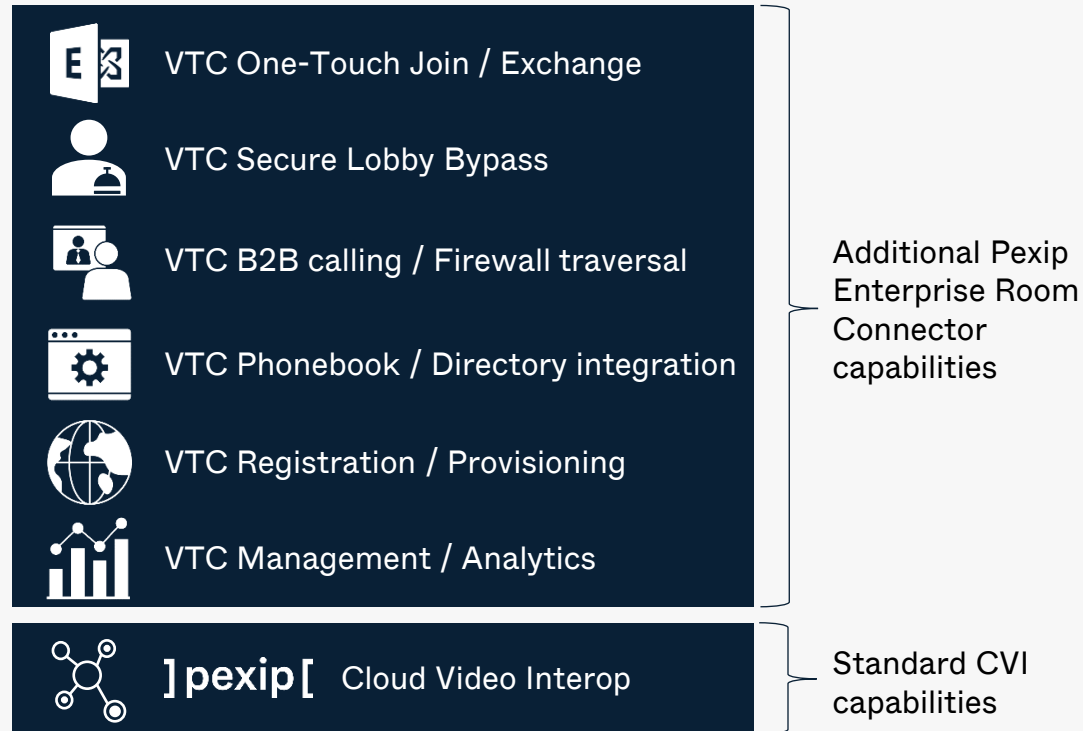

Pexip Enterprise Room Connector

Connect enterprise video conferencing systems to Microsoft Teams meetings

Pexip Enterprise Room Connector

Single solution to provide both CVI capabilities and VTC infrastructure modernization

All-in-one SaaS solution for CVI + VTC infrastructure

- All you need to modernize current VTC infrastructure and simplify IT
- Maintain VTC use cases, including P2P, B2B calling and phonebooks
- Proven global CVI capabilities – global footprint, secure lobby bypass, per customer domain
- One-Touch Join for Cisco and Poly VTCs

Additional enterprise-ready capabilities

- Deployment Flexibility – SaaS, IaaS-enabled private cloud (host in your Azure tenant), or on-premises deployment options
- Maintain quality and security with ExpressRoute
- Custom branding for VTC capabilities
- 1080p video
- AI-powered Adaptive Composition VTC layouts
- Robust endpoint management with Enhanced Room Management add-on

Cloud Video Interop plus complete integrated Pexip VTC functionality

All-in-one subscription on a per-VTC system basis

Pexip Enterprise Room Connector: More than Cloud Video interop (CVI)
