# TitanHQ
Safe Titan

The only behavior driven security awareness solution that delivers security training in real-time.

SafeTitan is built for scale and catering for companies of all sizes. Schedule unlimited regular and advanced simulated phishing tests to assess the level of phishing susceptibility in your business. Comprehensive and customisable library of hundreds of "known-to-work" phishing templates, updated regularly to reflect current trends. Get phishing results including industry benchmark.

KEY FEATURES:

- Recreate any phishing attack including ransomware, BEC, wire fraud, CEO fraud.
- Phishing tests with links, attachments, and fake log-in pages.
- Simulate phishing attacks impersonating internal email addresses.
- Avoid users tipping each other off using burst mode which sends multiple templates in one campaign.
- Phishing tests that auto-enrol user in training.
- Every user interaction fully recorded for reporting.
- Identify repeat offenders, high-risk departments or locations.
- Identify geo-location, operating system and browser edition.

SMISHING SIMULATION

Raise staff awareness of SMiShing-phishing via SMS – by sending customisable malicious text messages directly to their mobile phones.

SafeTitan allows you create a culture of security awareness within your business by delivering human cyber risk management and behavior change technology that helps staff in their exact moment of need, on any device, in any location to mitigate the possibility of human risk.

Impact of SafeTitan security awareness training:

- Up to 70% reduction in training costs.
- Up to 90% reduction in staff phishing susceptibility.
- up to 800% ROI against a single security incident.
