

**Hassle-free, adaptable and scalable
Lending as a Service Platform**

Fast implementation

Accelerated time to market: Marble can be up and running within your organisation in under 20 weeks, the fastest LaaS product in the marketplace.

All-inclusive, cloud-based service – there's no need for you to upgrade your internal infrastructure.

Seamless integration

Marble can be integrated with systems throughout your organisation. It can be embedded in your applications or accessed through APIs.

Marble integrates with your existing technology, minimises delays, helps you adapt quickly to a competitive market and meet customer needs.

Intelligent support

Marble is a managed service: we'll implement, integrate, update, upgrade and operationally manage the application for you, so your team can continue business operations without any hassle.

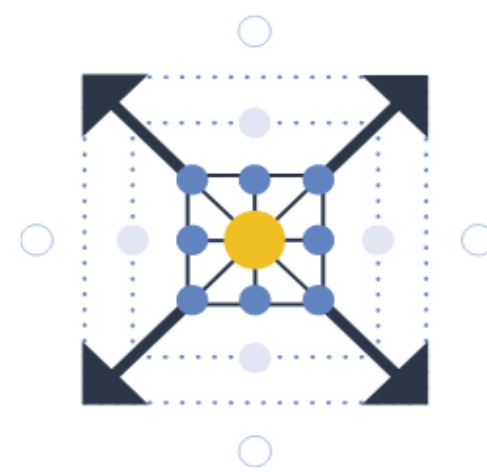

Cost Control

Our pre-packaged product gives you access to innovative solutions at a competitive price.

Monthly price with basic changes included so you can control your costs.

Modular and scalable

Modular approach with built-in flexibility, so services can be added on as your business grows, to create a bespoke lending platform with minimal disruption.

Lending made easy

One platform connecting all lending products and services your organisation requires:

- Syndicated and bilateral deals, revolving loans, term loans, SBLC and guarantees
- Standardised processes and workflows
- Product configuration: static data, postings and charges
- Reports and client outputs
- Security and user roles
- Standard interfaces (rates, fx rates, holidays, reporting, notices, payments, accounting).
