# The Nuventive Improvement Platform

Achieve. Improve. Adapt.

Nuventive turns plans into progress.

To achieve their purpose, your institution's strategic initiatives can't live in silos. They need to be connected to your analytics and reporting systems, so everyone can map their progress and see what moves the needle on your strategic goals. With Nuventive, relevant operational data sits next to your plan - in the same screen - so you can drill down to understand your progress with live or snapshot-in-time information.

Because people will use the best information to make decisions, your initiatives will result in progress. You'll accomplish your mission. And that makes reporting on results a whole lot easier.

Build a sustainable data-informed culture with Nuventive

Institutions with a data-informed culture can achieve more, improve faster and adapt better. To improve and transform any aspect of your institution:

- **Base decisions on the best information** – Give faculty and staff a continuous feedback loop and a platform for delivering results.

- **Unite the plan and the data in a single screen** – Leverage your existing technology investments to display your live BI tools and static reports without leaving Nuventive.

Drive planning and progress for any improvement initiative

- + Overall strategy
- + Accreditation
- + Graduation rates
- + Retention
- + Diversity
- + Learning outcomes
- + General education
- + Housing
- + Sustainability
- + Administrative outcomes
- + Program review

Nuventive™

Make the most of your investments in analytics and planning:

With its improvement database tailored to support a data-informed culture in higher education, Nuventive uniquely brings together your information and narrative in an actionable way. Built and hosted on Microsoft® Azure, the Nuventive Improvement Platform visualizes the information in the database, and can even directly integrate with popular learning management systems.

Based on the highest standards of interoperability and integration, the Nuventive Improvement Platform:

- Integrates mission-critical information from any enterprise system or data source

- Streamlines the delivery of insights to your team

Do you have a data-informed culture?

To make it easy to for you to operationalize any improvement or transformation initiative, Nuventive:

- Brings meaningful information from your existing sources – ERP, SIS, BI, specialized reporting, and more – into a single, online environment and ties it directly to desired outcomes

- Helps you identify the information that really matters aligned with what you want to achieve

- Enables you to surface and disseminate best practices

- Builds measurement and the opportunity to adjust plans into every step of the process

- Engages stakeholders from across the institution so they can use information to inform effective action

Ready to embark on a transformative journey?

Your journey toward a sustainable culture of data-informed excellence starts now. Contact us at **LearnMore@Nuventive.com**.

Nuventive Services: Support from a seasoned team

Nuventive also offers strategic consulting services, delivered by well-regarded higher education consultants. Our team brings many years of real-life experience in technology, process redesign, and facilitating cultural change.

+ **Nuventive Implementation Services:** We lead set-up and configuration of the solution for each institution, including project management, training, materials design, and linking your existing plans to relevant KPIs.

+ **Nuventive Technical Services:** We help you leverage existing technology investments to measure performance and incorporate KPIs in planning. If you choose, we can work with you to augment your existing BI over time to improve decision making.

+ **Nuventive Consulting Services:** These optional services help your leadership team and key stakeholders build the action plan and internal competencies you need to take full advantage of performance-driven decision making.
