commercetools **Microsoft Azure**

Compose your success with the leaders in digital commerce and Azure cloud's mastery

About commercetools

commercetools provides the leading composable commerce platform, giving companies all of the components required to **run outstanding shopping experiences across all digital and physical touchpoints**. We equip some of the world's largest B2B and B2C businesses with tools to future-proof digital offerings, reduce risks and costs and drive revenue growth. With commercetools products and solutions running on Azure **it's not just about being on the cloud, it's about unlocking its full potential**.

Power your commerce your way with commercetools and Azure

commercetools offers a cutting-edge, cloud-native platform and component-based applications designed to deliver seamless shopping experiences. With high availability and scalability at its core, commercetools platform ensures that commerce operations remain responsive and adaptable to meet fluctuating customer demands. This flexibility empowers businesses to create personalized and unique shopping journeys, providing customers with consistently smooth and efficient online experiences in the B2B and B2C space.

Our cloud-native platform is integrated with Azure's robust cloud services and since 2024 we are also **now accessible through the Azure Marketplace**, offering businesses unmatched flexibility, scalability and reliability. By using Azure's global infrastructure and commercetools' innovative solutions, businesses can expect superior performance, ensuring digital operations are fast, secure and responsive. This collaboration simplifies the deployment of commerce, empowering businesses to achieve their digital transformation goals efficiently.

What our customers are saying

"As Interflora UK's mission became progressively hard to deliver with the old architecture, it was time to reset its eCommerce infrastructure to keep delivering on the company's promise… And wow our customers once again."

– Nathan Young, IT Director, Interflora UK

Why Microsoft Azure?

Be future-ready

Microsoft's continuous innovation empowers your development today and shapes your product visions for tomorrow.
