

The world's **most accurate** cyber risk rating platform.

Manage Your Extended Enterprise Risk

Cut through the complexity & scale of cyber risk with a global enterprise approach

Measuring cyber risk across the enterprise is now within reach. Monitor at scale with automated cyber risk scoring using proven adversarial testing methods. Backed by military cyber veterans and experienced risk managers, we deliver the hacker's perspective.

Predictive cyber risk monitoring to guide your dynamic enterprise

Eliminate False Positives. Improve Transparency.

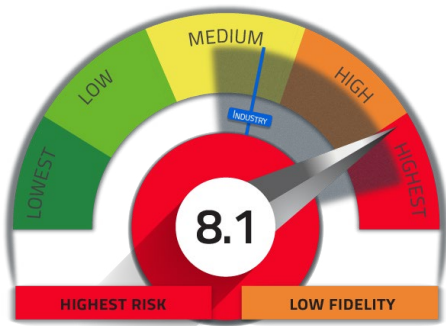

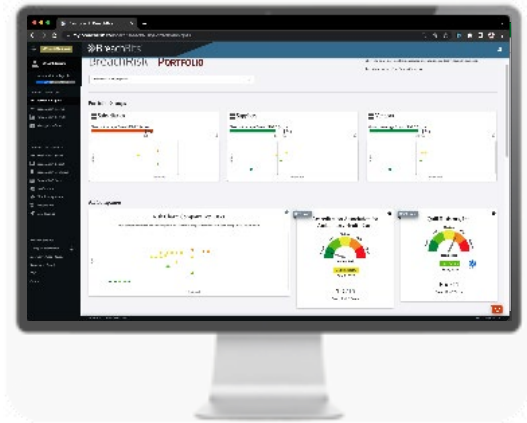

BreachRisk™ detects the threats attackers could **actually** breach, while giving you credit for compensating controls. Risk measurements are standardized, transparent, and based on the hacker's perspective.

BreachRisk™ Advantages

- Rigorous, fair scoring
- Boardroom-ready
- Continuous, threat adaptive

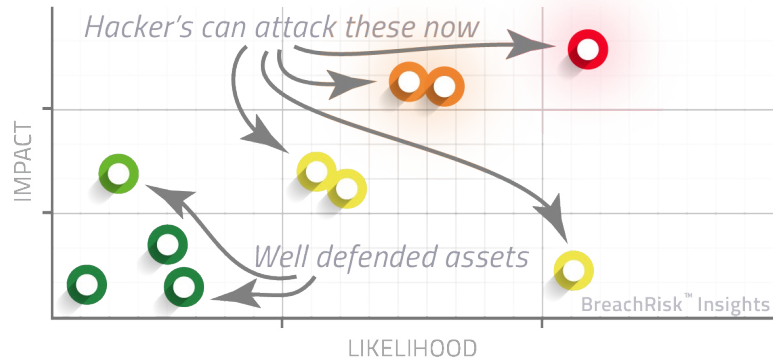

Alternatives

- Opaque, mysterious methods
- Overemphasis on compliance
- Theoretical, false positives

Acme Company, Inc.

Continuous Cyber Risk Analysis
