

SOLUTION: PAQS-ECP

Enterprise Container Platforms on Microsoft Azure.

A pre-engineered enterprise container platform, rapidly deployed to your tenant. Enterprise-grade, secure, compliant, automated and right first time.

SOLUTION OVERVIEW

BlakYaks accelerator pack for Enterprise Container Platforms (PAQS-ECP) is a pre-engineered Azure container solution, accelerating the delivery of a quality containerised hosting platform on Microsoft Azure, ready to host your most critical applications and workloads.

The platform is compliant with industry best practice and strong standards, fully deployed with code (IaC) and integrated into your Azure tenant and Azure DevOps pipelines.

The ECP solution has been rigorously tried and tested in BlakYaks own Azure labs and proven in the field. Right for customers that prioritise quality and speed.

Rock-solid ECP design

An enterprise-grade design, fully automated and employing best of breed Azure native and CNCF tools and technologies.

IaC code and DevOps integration

Deployed with code. Designed to be managed with code and integrated into DevOps and GitOps processes & pipelines.

Expert team

Our delivery squad delivers the ECP solution swiftly, then hands over to your Ops team or BlakYaks SpecOps team to support.

BENEFITS TO YOU

- ▶ ECP platform full design and deployment ready for production workloads
- ▶ Azure battle-hardened, secure and compliant with strong industry standards
- ▶ Fully automated, reducing long-term costs and providing a stable operating environment
- ▶ Application and product team support available from BlakYaks to onboard apps and services
- ▶ Employed modern cloud native methods throughout. DevSecOps and GitOps ready

SUITABLE FOR YOU IF

You seek to modernise apps with Azure and containers

Need expert help for Azure container platform design

Pursue a centralised container platform for long-term efficiency

Aim to fill skill gaps in containerisation and DevOps

Want to cut costs by shifting from VMs to containers

Require a platform you can trust for your critical applications
