Azure Virtual WAN Assessment

What is **the Azure Virtual WAN Assessment**?

The **Azure Virtual WAN Assessment** from Servent is our Azure networking assessment service that brings together core networking, security, and routing services in Azure.

We will make recommendations based on the assessment that we will undertake. Following the assessment we will remain available for further engagement to help and assist with the implementation of the **Azure Virtual WAN** service.
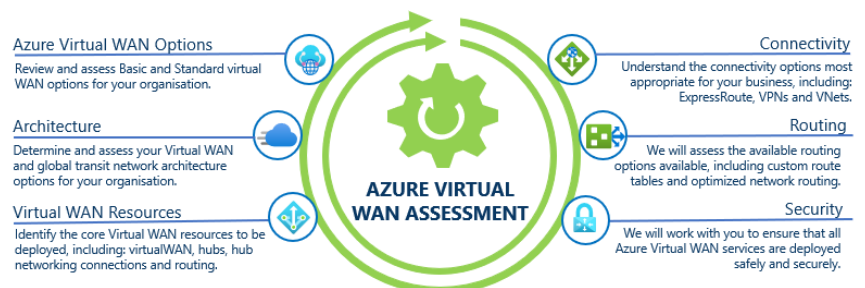

Benefits

- Your assessment shall be completed by our certified Architects and Azure Engineers.
- Determine the most appropriate **Azure Virtual WAN** architecture for your organisation and how to migrate to **Azure Virtual WAN**.
- Ensure that **Azure Virtual WAN** is deployed following both Servent and Microsoft recommended best practice.
- We can help accelerate your Azure networking capability by leveraging our expertise for all aspects of **Azure Virtual WAN** and Azure networking in general.
- Enable your internal Network teams to deploy and manage new Azure networking solutions such as **Azure Virtual WAN** with confidence.

Our **Azure Virtual WAN Assessment** is a three day offering where we will work with your organisation to understand how we can deploy this service to provide you with an optimized networking experience in Azure. The **Azure Virtual WAN Assessment** from Servent will provide your organisation with the opportunity to engage with our Azure Architects and Engineers on all aspects of **Azure Virtual WAN** networking.

As the Azure public cloud has grown so have the numerous networking options and solutions available on the platform. Between the networking services native to the platform and the hundreds of others published in the Azure Marketplace the sheer scale of available and potential solutions can be somewhat overwhelming.

This is where Servent are best placed to help. Given our heritage on Azure we have a deep understanding of both native Azure and third party networking offerings available in the Azure Marketplace. As part of our **Azure Virtual WAN Assessment** we shall work with you to understand your business. We will also help to identify hybrid and cloud networking solutions and services to provide you with the best and most appropriate **Azure Virtual WAN** solution for your organisation.

A selection of high-level outcomes from the **Azure Virtual WAN Assessment** is presented below.

Please get in touch if you would like to discuss your own requirements with regards to assessing and deploying Azure Virtual WAN.
