

UNLOCK HIDDEN COST SAVINGS WITH

Asset Management's Optimization Module for Microsoft 365 licences

Are you overspending for Microsoft 365?

Asset Management's Optimization Module for Microsoft 365 licences connects your MS365 administration with usage data, allowing you to spot cost-saving opportunities that you might have otherwise missed.

alvao.com

With ALVAO you can easily identify

Inactive & disabled users

Double-licensed users, who are using both per-user and per-device licensing

Users who are eligible for downgrade from E3 to E1 or from E5 to E3

By optimizing your Microsoft 365 licensing, you can typically save between 20 – 30%.

That's a significant cost savings that can go a long way toward improving your bottom line.

Unleashing Power for Optimal IT Resource Management

With ALVAO Asset Management, you have access to a suite of powerful tools designed to help you manage your IT assets more effectively. Our optimization module is just one of these tools, and it can help you **save money by identifying and removing unnecessary licences.**

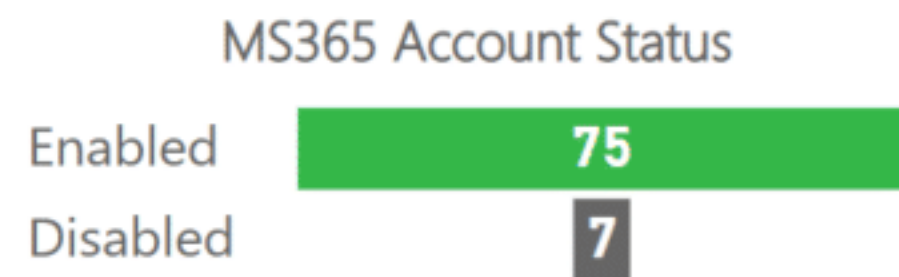

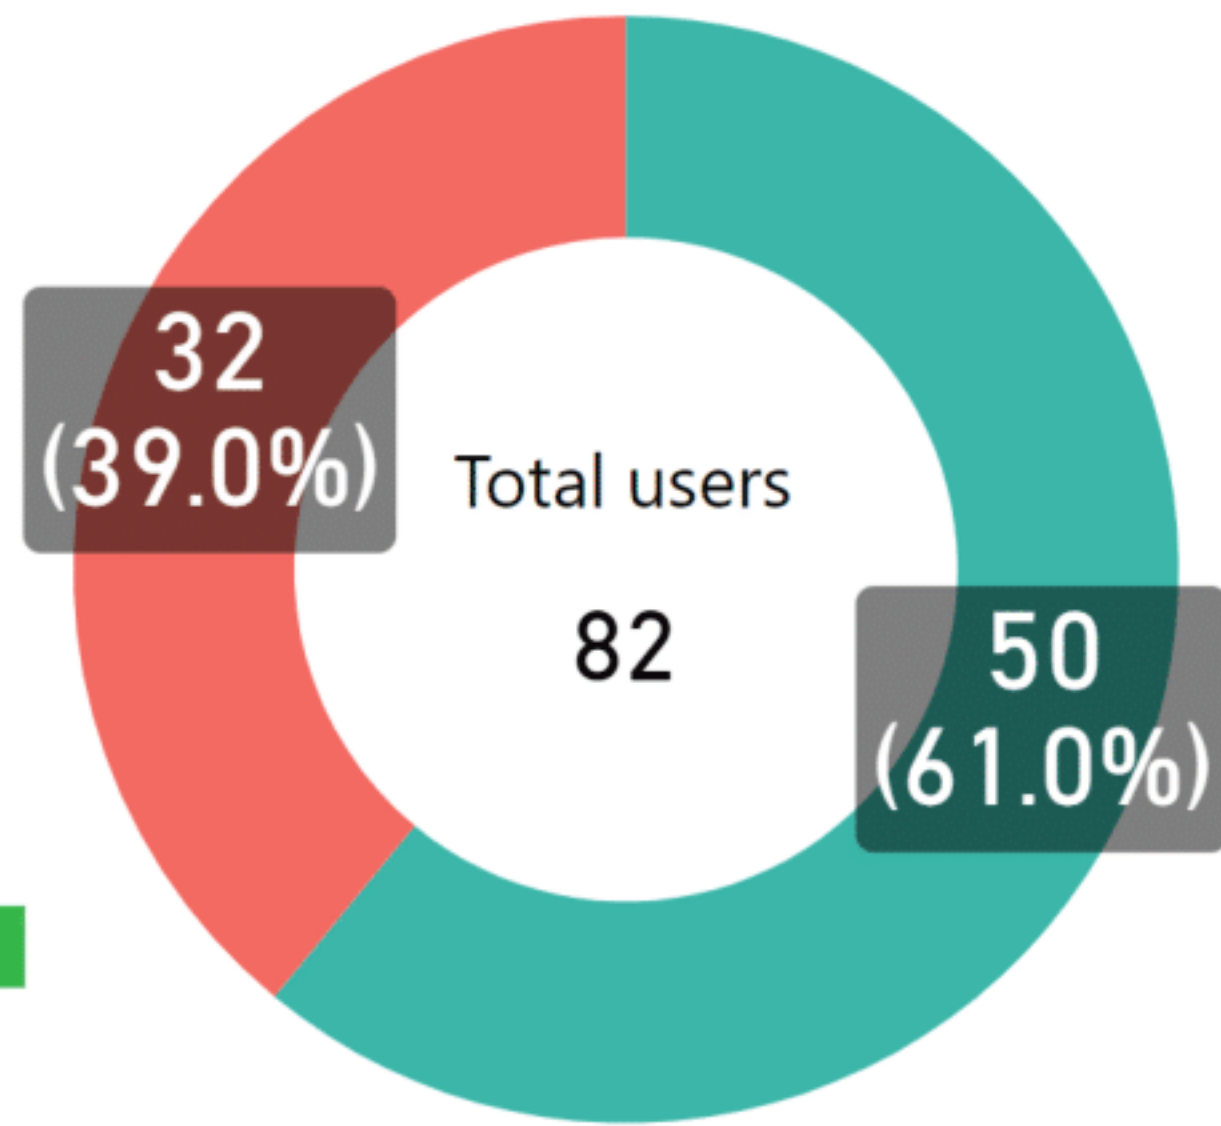

Comprehensive Visibility and Control

By using ALVAO Asset Management, you can also **gain better visibility into your hardware and software assets**, track licenses and contracts, and manage your IT assets more efficiently.

Dashboard for optimizing Microsoft 365 licenses

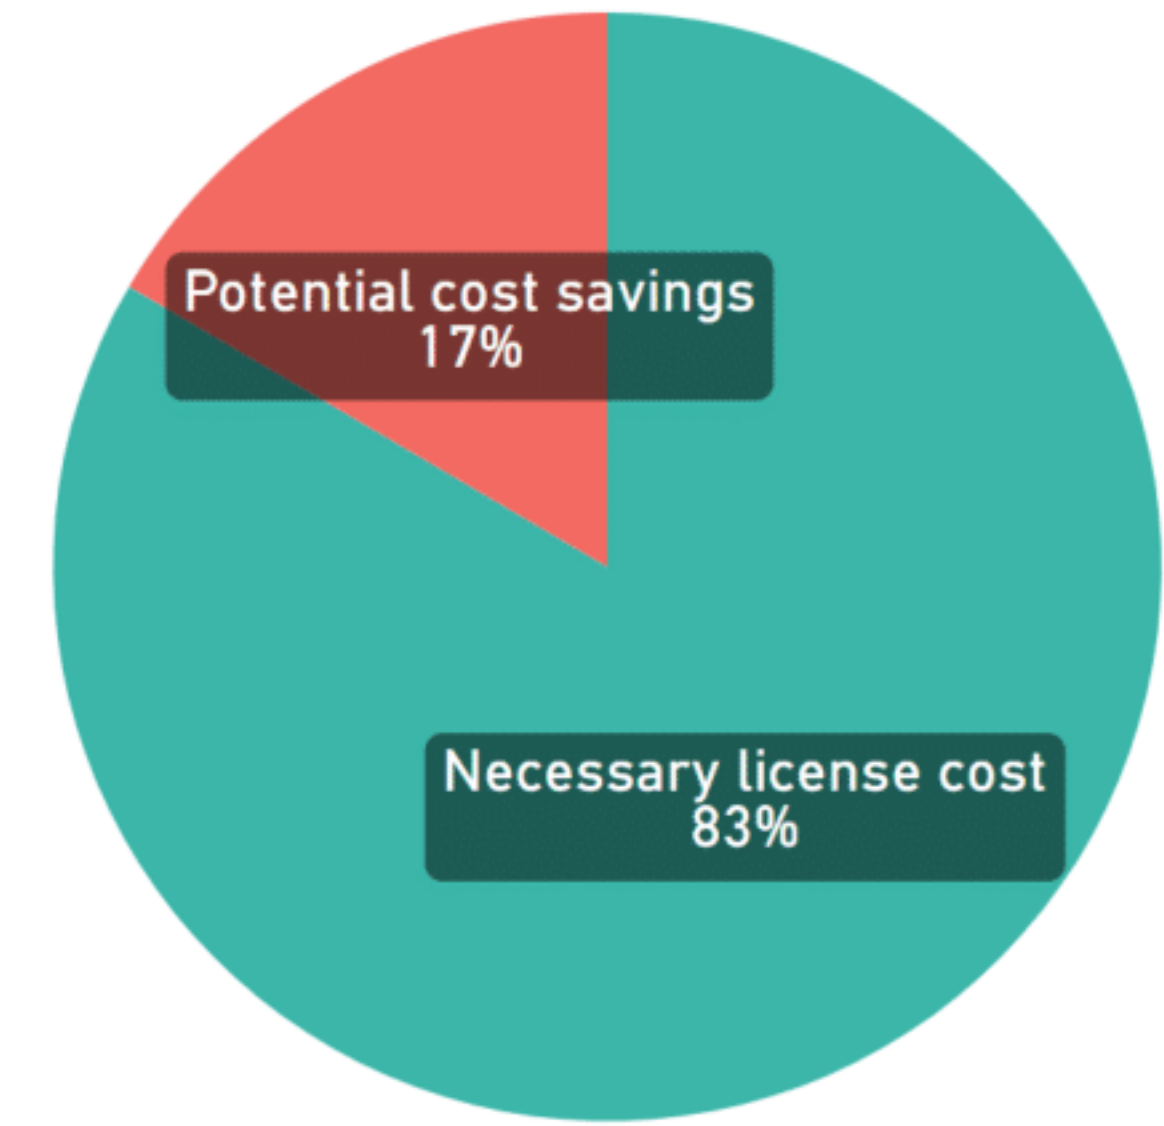

42 issues

among 31 licensed users

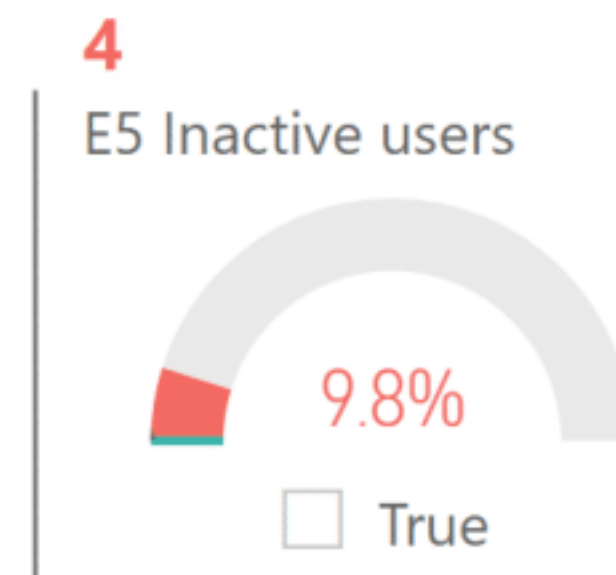

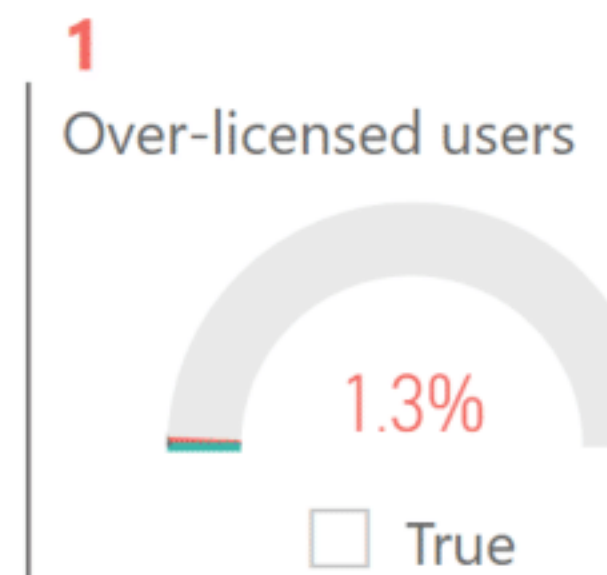

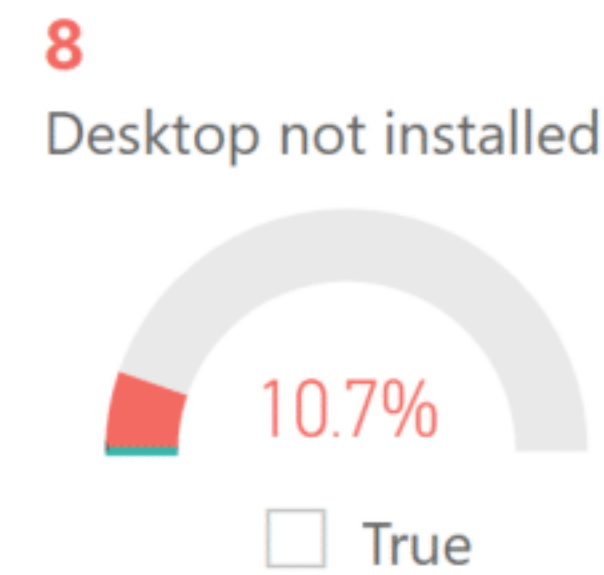

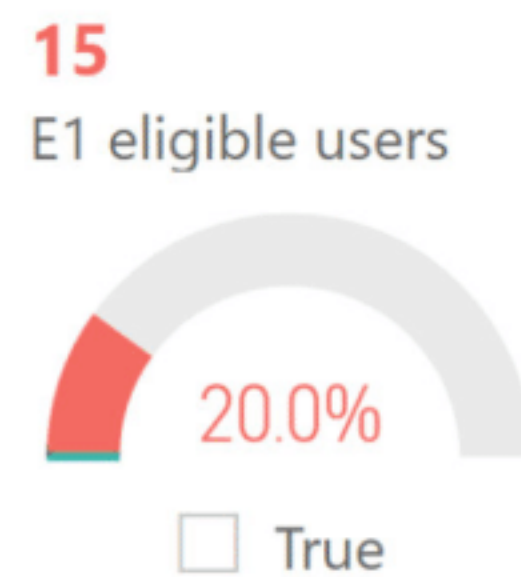

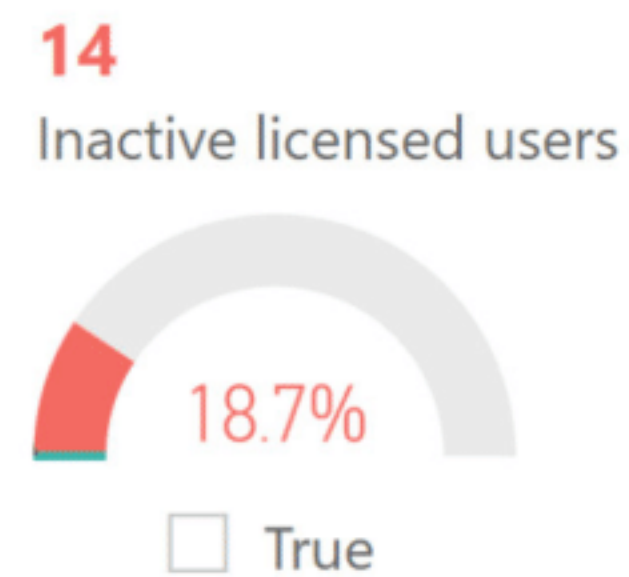

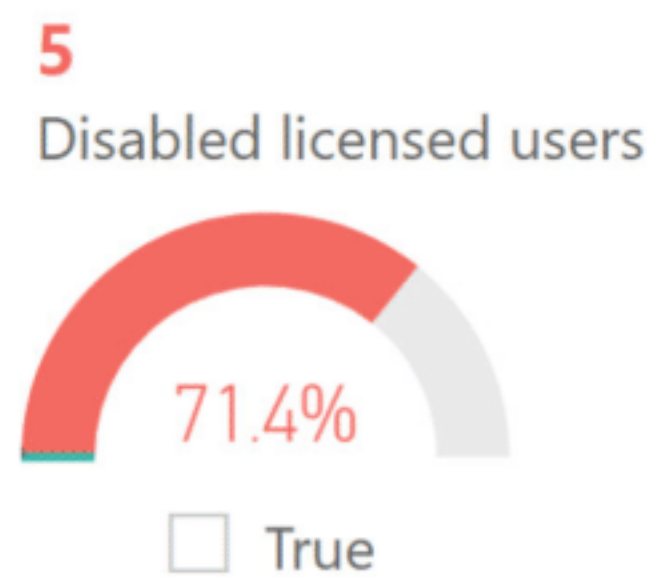

Annual License Cost Analysis

£28,814	Total license cost
£24,041	Necessary license cost
£4,774	Potential cost savings

Optimization metrics (number of users per issue)

All users - master table

User	Cost center	URL	User optimized	Issues count	Annual license cost (user)	Annual necessary cost (user)	I cost savings	Disabled licensed user	Last Activity	No Recent Activity	Web	Windows	E1 eligible	Desktop not installed
