

VMware on Microsoft Azure

8 weeks Assessment

Run VMware on Azure and
accelerate cloud migration

Why organizations move to Azure VMware Solutions (AVS) after the Broadcom acquisition?

Elitmind / Migration to AVS after an assessment

Let Elitmind help you invest more time creating value rather than integrating and managing your data estate.

Benefits:

Enhanced security

Easier support

Costs optimization

Enhanced security

17%

Security improvement

Easier support

2 Hrs

Daily time of a support engineer savings

Costs optimization

\$27M

Annual cost-savings of our clients

Cloud migration strategies

First steps to accelerate migration and mitigate risk

Rehost

Redeploy as-is to cloud

The least risky move to migrate existing apps.

IaaS and
Azure VMware Solution
(Azure Specialized)

Modernize

Attach workloads to cloud services

Extend capabilities of your existing VMware apps.

PaaS

Refactor

Reduce footprint and switch to containers

Improve total cost of ownership with economical cloud resources.

Containers

Next Steps

To proceed with the Migration to AVS assessment, please review and sign the assessment agreement sent by us. Upon confirmation, we will schedule an initial kick-off meeting to begin the assessment process.
