## CHALLENGES OF PATENT MONETIZATION

Overloaded  
Workflows

Inefficient Processes

High risk of human  
error in data analysis

Time-consuming  
tasks reducing overall  
productivity

Challenges in  
recognizing valuable  
opportunities

## ClaimChart LLM

## TRANSFORMING LICENSING WORKFLOWS

Identify potential infringers and  
their products with unprecedented  
accuracy

Accurate AI-generated claim charts  
through our advanced semantic analysis  
capabilities

## Why choose ClaimChartLLM?

75% time efficient  
compared to  
conventional/manual  
methods

Only platform to  
automate  
infringement and  
claim chart analysis

Provides  
interpretations &  
reasonings that  
human may  
sometimes overlook

## HOW WOULD YOU BENEFIT

Uncover hidden gems  
within your patent  
portfolio

Optimize Portfolio  
Efficiency

Run Annual Scans

M&A Due Diligence

## What Powers Claim Chart LLM

### Para Embed™

Converts patents and competitor product documents into vector embeddings for comparison.

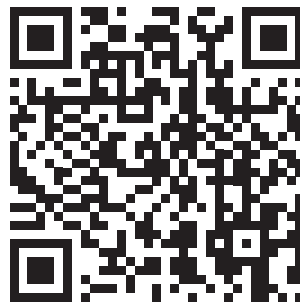

### Para-RAG™

Retrieves relevant competitor information and helps analyse infringement for claim chart creation.
