REMARK Ⓐ

Crowd intelligence for stadiums & events

Boosting stadium security, revenues & the visitor experience with video analytics

AI-driven video analytics that integrates with your existing CCTV to unlock hidden revenue opportunities, drive operations, and increase security

Remark AI extracts video content from existing CCTV to deliver data-driven intelligence, enabling event organizers to see patterns and track trends over time, better plan and manage traffic flow, and offer insight into optimal concession areas, and security teams visibility on overcrowding and access points.

Understanding the number of people and traffic flows enables operations, security, and event organizers to deliver a safer environment, uncover revenue opportunities and deliver a positive visitor experience.

SOLUTION FEATURES

REAL-TIME SITUATION AWARENESS	ADVANCED ANALYTICS WITH REAL-TIME ALERTS	USER FRIENDLY INTERFACE AND DASHBOARD	EASY & FLEXIBLE DEPLOYMENT
ADVANCED ANALYTICS • People counting • Traffic flow analysis • Capacity monitoring (inc. crowd monitoring) • Queue management • Heat-maps	**DETECTING** ○ Intrusion ○ Loitering ○ Weapon ○ Unattended object ○ Smoke & fire ○ Slips, trips & falls • Face recognition • Unauthorized access or watchlist alert • Metadata video search based on attributes	**SMART SAFETY PLATFORM** • Real-time event notifications • Live counting dashboard • Google map & floor plan view • Email, SMS alert notification setup • Historical dashboard • Event report	**EASY INSTALL 'PLUG & PLAY'** • Supports both edge and cloud deployment • Integrates with existing hardware / cameras

About Us

Our award winning AI models and video analysis increases the safety of any environment, and the operational efficiency of both private and public sector organisations. Our video analytics works with existing video or CCTV systems to keep workers, spaces and valuable assets safe along with buildings secure.

We apply artificial intelligence and machine learning onto existing IP CCTV systems to transform video content into actionable insights for rapid review with real-time alerting.
