

Comprehensive Care Home Management: Cura Web

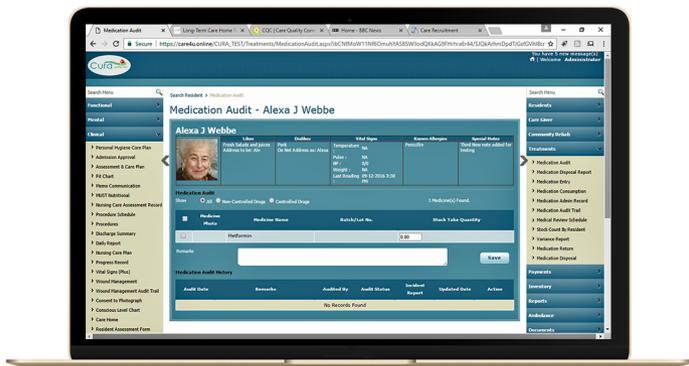

Cura Systems is the leading innovator in Care Home Management Systems, creating the most comprehensive software in the market with the widest scope of functionality.

Cura Web supports every aspect of you care home administration and provision of care, acting as the central controlling point and repository for all of your care records. It supports you to improve care outcomes and safeguard your residents and care workers.

Cura Web has extensive functionality and is extremely customisable. Why use lots of different systems when you can have one that grows with you?

You can choose to utilise some or the entire module collection dependent on your preference and process:

<ul style="list-style-type: none"> • Inventory management 	<ul style="list-style-type: none"> • Daily reports - which can include voice recording and photos. 	<ul style="list-style-type: none"> • Set care plans 	<ul style="list-style-type: none"> • Staff planner - planned hours on each care worker vs actual hours worked - be notified if they go over their hours. 	<ul style="list-style-type: none"> • Handover notes - send them to multiple people, to ensure the process does not fail.
<ul style="list-style-type: none"> • Discussion - like WhatsApp you can construct a group chat - meaning a full audit trail. 	<ul style="list-style-type: none"> • Financial dashboards and reporting 	<ul style="list-style-type: none"> • Bed turning alerts and schedules 	<ul style="list-style-type: none"> • Incident reporting 	<ul style="list-style-type: none"> • Wound management
<ul style="list-style-type: none"> • Event planner 	<ul style="list-style-type: none"> • To-do lists - that can be sent to any of your care team. 	<ul style="list-style-type: none"> • Room and bed planning 	<ul style="list-style-type: none"> • Medication management 	<ul style="list-style-type: none"> • Health and safety checklists
<ul style="list-style-type: none"> • Meal planning and alerts - residents can pick their food choice, cooks can download the requirements & calorie consumption can be calculated. 	<ul style="list-style-type: none"> • Shower planning - created as tasks for the care worker. 	<ul style="list-style-type: none"> • Duty rosters 	<ul style="list-style-type: none"> • Create How Do I video, audio or document user guides - helps when new staff are unsure on a task. 	<ul style="list-style-type: none"> • Staff training - See what has been done, when it's up for review - always be compliant.

Not sure where to start?

We work with our customers to ensure every aspect of their care delivery is managed digitally. We offer an affordable suite of software applications, each built with a specific purpose that support CQC compliance and evidence improved care outcomes.

- **Cura Tablet** is specifically designed for the care worker to use at the point of care delivery. It provides all the relevant care information and resource to support the care worker.

- **Cura Mobile Apps, Cura Kin and Cura Angel**, conveniently and securely connect to friends, family and other service providers.

Give your care home a competitive advantage. Contact the Cura Systems team today.
