REFACTR PLATFORM

- Radically simple, **easy to use** platform
- **Low Code**, Drag and Drop
- **Marketplace**/Catalog to easily shareable between content producers, e.g. vendors
- Plug and play with existing technologies to provide **turn key** and immediate value
- Integrates **business process and security** together
- Designed for **collaboration** with built in **multi-tenancy** from Day 1
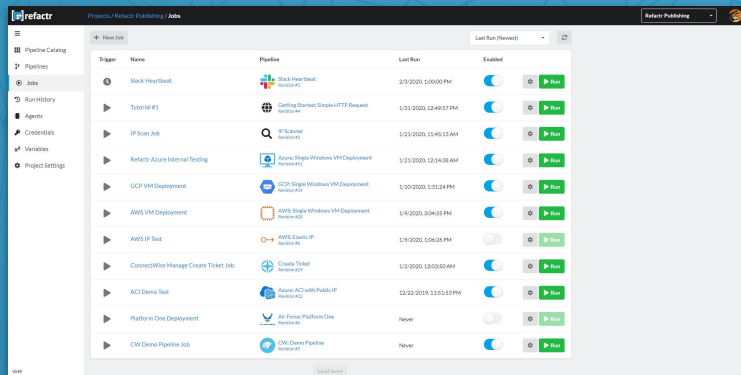

WHAT MAKES US DIFFERENT?

EASY TO USE FOR ANY TECHNICAL STAFF

Our radically simple platform provides a low-code approach for existing IT professionals and security engineers to automate almost any process in an elegant and efficient way.

ORCHESTRATES TECHNICAL & BUSINESS PROCESSES

Prevent silos by implementing end-to-end processes that integrate technical and business systems in a single platform to deliver IT as Code solutions in an agile and repeatable approach.

PROVIDES A SHAREABLE CATALOG OF VENDOR CONTENT

Out of the box vendor integrations through automation pipelines leveraging the most common tools and processes by organizations.
