1 MICROSOFT AZURE NETWORKING HEALTH CHECK – OVERVIEW

1.1 What is Microsoft Azure Networking Health Check?

Microsoft Azure Networking Health Check is a fixed price, duration, and outcome professional services engagement offered by CDW to help organisations gain a better understanding of their Azure Network environment and identify ways to improve performance and governance of their Azure network infrastructure.

CDW can provide an invaluable maturity assessment of a customer's existing Azure Network infrastructure, using vendor-accredited expertise to compare current configuration against Microsoft's Azure Architecture Framework. This enables CDW to make recommendations on where and how to improve Azure networking within a customer environment with a focus on optimising daily management and operation, as well as governance controls.

1.2 How is Microsoft Azure Networking Health Check Charged?

Microsoft Azure Networking Health Check is a fixed-cost, time, and outcome professional services engagement.

The pricing includes:

- An overview report in PDF format which includes:
 - A summary of technological findings and recommendations deemed to be most appropriate in supporting the customer's business objectives.
 - Suggested strategies for scaling Azure networking technology in the customer's environment.
 - An evaluation of the customer's alignment with Azure networking best practices.

Total: £3,000.00

2 ENGAGEMENT SCOPE

The scope of work for this Project will be:

- Conduct technical workshops with the Client to better understand the Azure Network environment, discussions will be held on the following topics:
 - Environmental governance including Azure Network requirements, current Network configuration, subscription and tenancy configurations
 - Azure Network architecture – topology.
 - Azure networking configuration and design
 - Business Continuity review (For networking).
 - Azure Network Security including Network Security Groups (NSGs) and Firewalling.
 - Azure Management and automation for Networking.
- Production of an Azure Network Health Check overview Document.
