

OnActuate Deployment Streamliner Toolkit

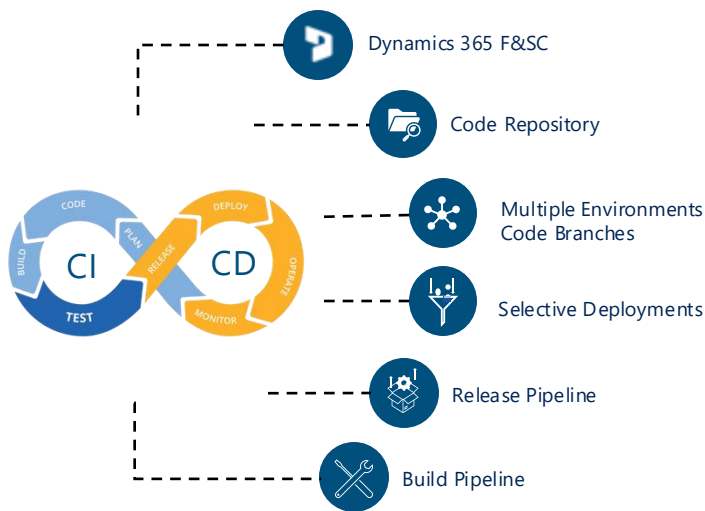

Powered by Microsoft Azure DevOps

Are you concerned about losing code, overwhelmed by manual code deployment tasks, or struggling to identify build errors?

Introducing the **OnActuate Deployment Streamliner Toolkit**, a configuration service through Azure DevOps designed to get streamline your code deployment process in Microsoft Dynamics 365 Finance & Supply Chain and ensure code integrity within 3 weeks.

A leading global implementation partner for Microsoft, and expert in continuous integration and continuous deployment, OnActuate is committed to hassle free deployments.

Advantages

Source code repository

Maintain your code repository across all branches and ensure proper code traceability.

Detect build errors early

While developers typically check for build errors locally, issues can still occur in the development branch if all objects aren't checked in. Configuring CI/CD helps identify build errors immediately upon check-in.

Automatic package creation

The build pipeline enables the automatic creation of packages.

Automatic package upload

The release pipeline facilitates effortless package uploads to the Asset Library and streamlines deployment.

Selective deployment

With multiple branches for different environments, only approved work items are merged and deployed. This ensures fast and easy deployment without the need for rollbacks.

Pricing and Features

Pricing estimated based on scope of work

Support for 2 production deployments

Set up code deployment across 3 D365 F&SC environments: Development, testing, and production

3 weeks

Key user training and create setup/configuration documentation for branches and pipelines

Establish a CI/CD framework through build & release pipeline using Azure DevOps

About OnActuate

OnActuate is a people-first global technology and consulting firm, Microsoft Solutions Partner, and Dayforce System Integrator Partner. For over a decade, OnActuate has been committed to helping organizations achieve more with less by leveraging Microsoft technologies and OnActuate's unmatched solutions. OnActuate's tailored business and data solutions, coupled with its experienced team's collaborative, process-centric approach, has helped many organizations reimagine their business in the digital age.
