

MeisterTask Business

Intuitive, agile task management for businesses

MeisterTask Business offers the best of both worlds: simple, intuitive task management for your team, and sophisticated rights management for you. Give your team the tool it needs to work together efficiently, while maintaining full control over projects, project planning, workflows and tracked time.

Tip: Choose MeisterTask's Enterprise plan to get a tailored pricing offer, custom security review, a dedicated account manager and more.

Here's what's included:

Timeline

Visualize all tasks in a project on a color-coded calendar. Plan who should work on them and when.

Private Projects

Restrict project access to ensure that important data stays on a need-to-know basis.

Agenda

Pin tasks from any project to your own personal board, then organize them to suit your needs.

Roles & Permissions

Assign different roles to people inside and outside your organization, limiting their access rights to projects and/or tasks.

Statistics and Reports

Get insights into your team's productivity and efficiency, see how projects are progressing, and more.

Integrations

Easily connect MeisterTask with the tools you and your team already use on a daily basis.

User Groups

Organize users into groups to share projects faster and more easily, and never leave anyone out.

Automations

Automate recurring steps, tasks and assignments in your workflow to save time and achieve consistency.

Time Tracking

Track the time you spend on tasks right inside the app. Edit time slips. Export reports.

Account Management

Easily access and manage the licensing and billing of your entire business team with ease.

Priority Support

Get guaranteed support within 8 hours from our dedicated customer support team.

Custom Fields

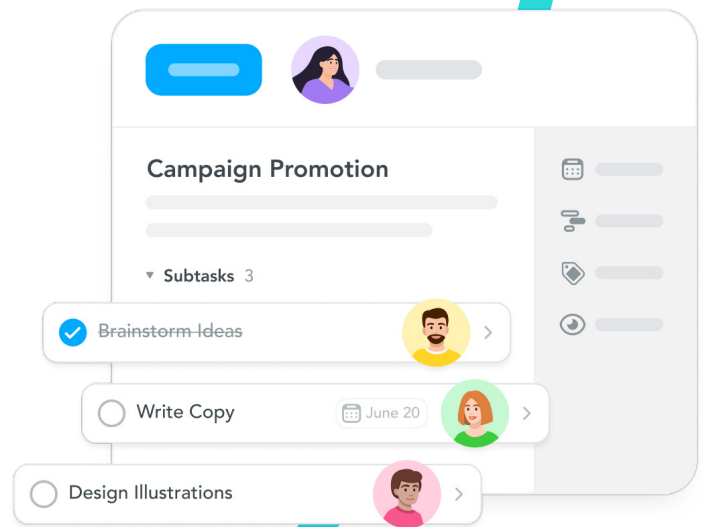

All info in the same place: customize tasks by adding fields for specific types of information.

Introducing Subtasks

More Clarity for Your Team.
A Better Overview for You.

Tasks too complex? Make them simply “sub”-lime with subtasks. Break down large tasks into **smaller, actionable steps** for smoother, more efficient project management.

Break it Down

...and stay on track. Break down complex tasks into smaller, actionable parts so no detail is overlooked. To ensure your team knows exactly what to work on and when, add an individual assignee and deadline to each subtask. With responsibilities crystal clear, workflows will be smoother than ever.

Build Transparency

...and add an extra layer of clarity in your tasks. Subtasks help your team see how work is connected, so they can easily stay up-to-date, align on priorities, and plan their time effectively. With subtasks neatly nested in the parent task, you have a granular view of task progress at a glance.

Get Organized

...and stay in control. A structured overview of task components helps you manage resources for smoother project planning. But more structure doesn't mean less flexibility. Add subtasks to multiple project boards and keep the details where the action happens – without losing sight of the big picture.

“With Subtasks, everything – from the big vision to the minute details – is crystal clear. This extra visibility has greatly improved alignment within the team.”
