

SAFE XDR

Cyber Safety at Machine Speed

The Revolutionary Shift in Cyber Security

Are you tired of the endless parade of cybersecurity solutions that promise everything but deliver very little? Safe XDR isn't just another player in the game – it's a complete paradigm shift. Welcome to the future of cyber safety, where you don't just secure yourself and remain fearful, you are both secure and assured!

Introducing Safe XDR

Safe XDR is the world's first platform designed for keeping you safe: secure and assured. We are considered Continuous Threat Exposure Management (CTEM) enablers* that addressed the key elements to keep you safe:

-  **Coverage:** Maximum coverage of your security controls with state-of-the-art playbooks allowing us 90% automation
-  **Mean Time to Respond (MTTR):** reducing it from hours and days to less than 6 minutes to tackle imminent attacks
-  **ROC (Risk Operations Centre) and SOC (Security Operations Centre):** Dealing with proactive, highly contextualised information to serve the business and avoid incidents from happening and quickly react to incidents as they occur

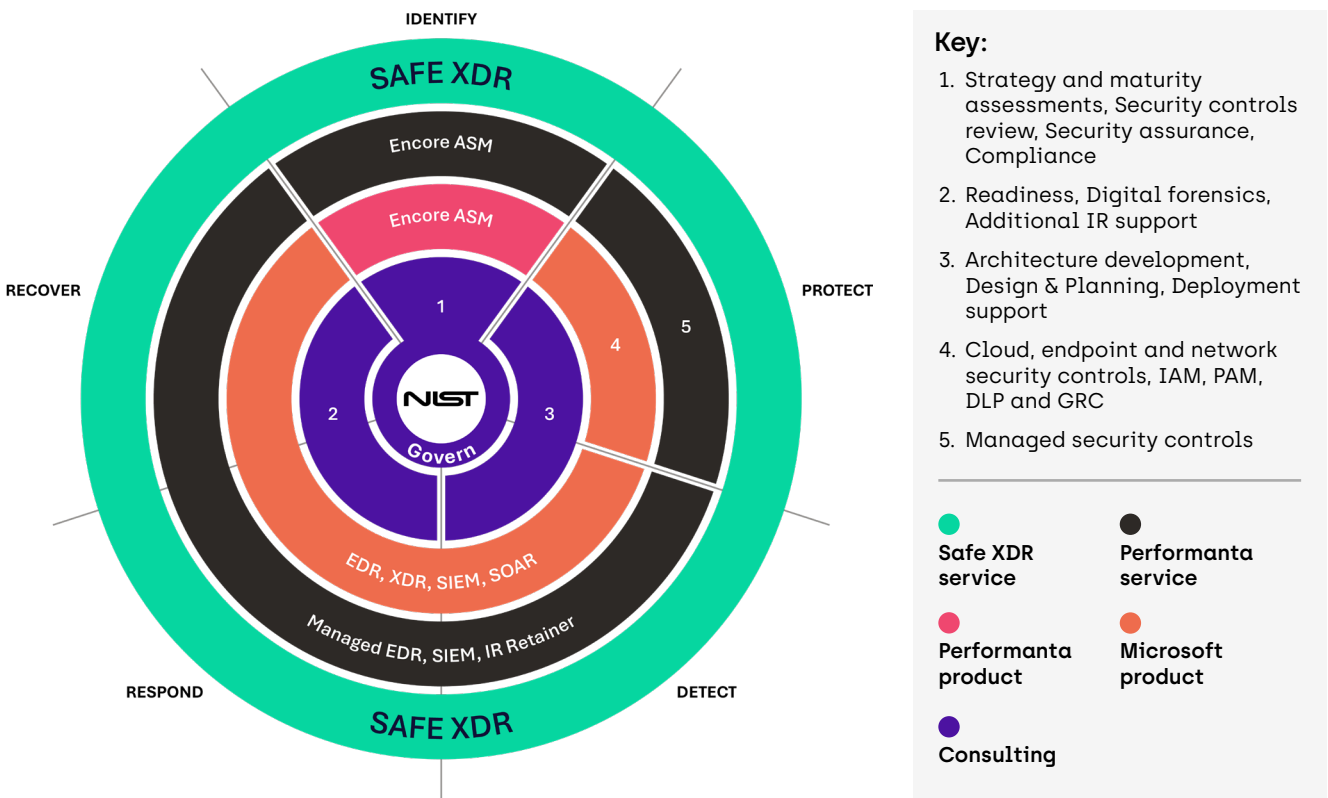

Experience Machine Speed XDR with Microsoft Copilot for Security

Safe XDR's integration with Microsoft's Copilot for Security is a game-changer – the world's first AI-verified Extended Detection and Response (XDR) service. This isn't just faster, it's transformative. Drastically reducing Mean Time to Remediate (MTTR) from over 2 hours to as little as 6 minutes!

Safe XDR Portfolio

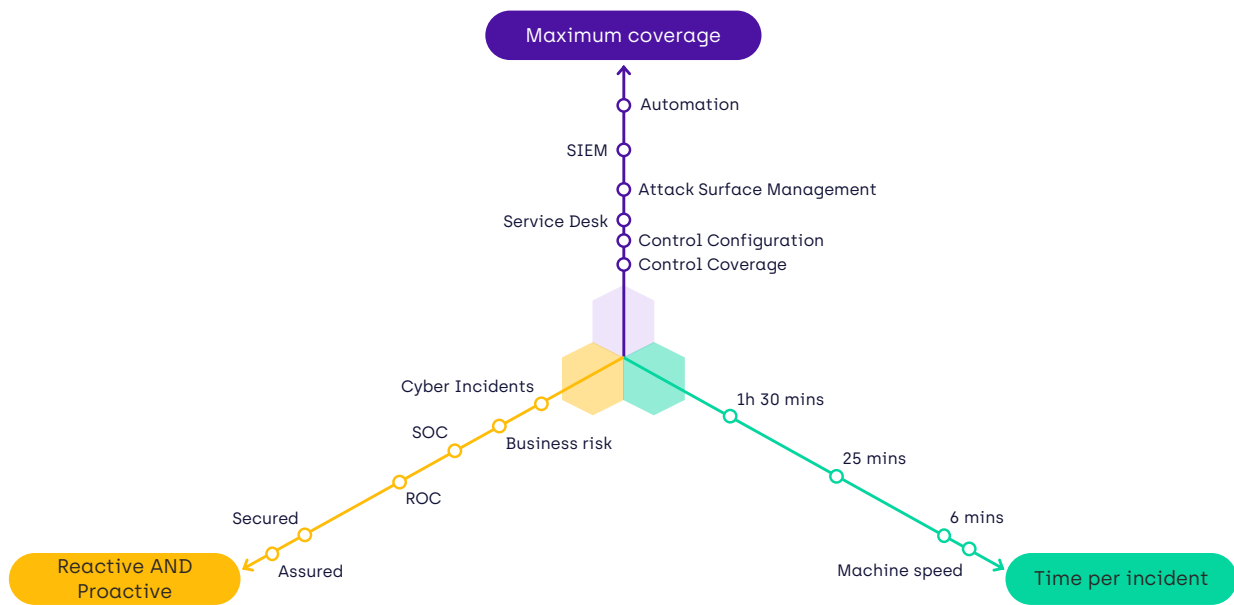

Safe XDR provides in a single package, all the capabilities you need to be cyber safe.

Whether you have some of these services already or are starting from scratch, we provide the consulting, products, and services you need to build and operate your own solution. Our portfolio is illustrated, below:

Key Benefits of Safe XDR

- + Friction free engagements: **60% reduction in inter-departmental friction**
- + Comprehensive Visibility and Transparency: **100% visibility across your attack surface**
- + Continuous Threat Exposure Management: **70% drop in risk of breach**
- + Independent from Skills Shortage: **100% independence from skilled labour shortages**
- + Increased Efficiency and speed: **90% automation of security tasks**
- + No need to change your tech stack: **Affordable pricing**
- + Rapid Response: **95% reduction in Mean Time to Remediate [MTTR]**
- + Stay ahead of evolving threats and better decision making: **World's first Risk Operations Centre [ROC]**

Understand and reduce business risk
 Providing valuable context
 Act as a bridge between Business, IT and Security
 Assist in prioritisation of Security and business Assets

Risk Operations Centre

No time wasted (increase accuracy)
 Speed matters in an Emergency
 Minimising financial losses (time is money)
 Predictable SLA compliance (consistency)
 Machine Speed Response [Gen AI integration]

Automation

SAFE XDR **Microsoft Copilot for Security**

XDR

We see and monitor everything [increase coverage]
 Ability to respond quickly, MTTC [reduces risk]
 We co-exist and enhance your current operations [reduces friction]
 Ability to remediate [reduces risk]

ASM

Transparency matters [accountability]
 Real time visibility [reduce friction]
 Fast remediation [reduce risk]
 Sophisticated integrations [out the box]
 Optimal coverage [reduce surprises]
