

Zensar's Azure Cloud Services

Zensar is a leading digital solutions and technology services company that specializes in partnering with global organizations across industries on their Digital Transformation journeys. Zensar has a global footprint and worldwide presence in US, Europe, Africa, and APAC with over 35 sales and delivery locations across industries.

WHAT WE OFFER

Zensar's Azure Cloud Services offering covers the whole 9 yards of Azure services right from consulting & advisory services to app modernization & migration. All the solutions and propositions include a plethora of best practices, are open for additional customizations, are fit for all scenarios and all deployment complexities are simplified through automation. The Azure Cloud Services' offerings adhere to the Azure Well-Architected Framework. Along with our industry-proven, and world-class accelerators we have a huge partnership ecosystem that helps us propose cutting-edge technological solutions and bring sustained value to our customers. The structure of Zensar Azure methodology is Discovery And Analysis, Architecture, Factory Setup, Wave Readiness, Validate Environment, Migration Execution, and finally, wave closure. Zensar's core cloud offerings include:

- 1) **Professional Services** - Advisory, Consulting, Portfolio Assessment, Recommendations, Cloud-Native Apps, PaaS/SaaS, Business Case, Cloud Strategy, Cloud Roadmap.
- 2) **Engineering Services** - Design and Build Provisioning Automation, Hybrid/Multi-Cloud Setup, Governance, Security, Network, Dev/Ops, CI/CD setup, Backup & DRaaS.
- 3) **Migration** - Migration Factory, DevOps Implementation, Data Migration.
- 4) **App Transformation** - Legacy Apps Modernization, Cloud Native PaaS with Dev/sec/Ops
- 5) **Optimize and Manage** - Cloud Operations, Security & Governance Automation

We use our own Cloud Management Platform "**The Vinci**" which is a next-Gen Multi-Cloud management platform for Hybrid/Multi-Cloud Self-service, Management, Orchestration & DevOps. The platform is based on the principles of Continuous Optimization, Hyper Automation, Centralized Seamless Monitoring, Release & Deployment Mgmt., Federated Identity Mgmt., Security Governance & Compliance, and Backup DR on Cloud.

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a \$1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
