# prism

Your Digital Intelligence Platform

Released in January 2021, PRISM for Office 365 is Trustmarque's Digital Intelligence platform that is designed to give you greater visibility over your IT estate.

We are proud to have assisted multiple customers to simplify M365 user and license management. Leveraging the power of Prism we uncovered valuable insights highlighting hidden opportunities for improvement and significant cost savings
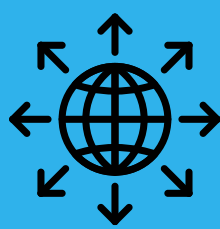

£

Total amount of customer cost savings to date.

£5m+

prism

Deployed over 300,000 users and £5m savings identified in less than 3 months.

Suitable for all volume license agreements including, CSP and EA.

Manage M365 by cost, business area, region, department or function.

We deliver 'out of the box' actionable intelligence to help organisations increase technology adoption, remove process inefficiencies and capitalise on cost saving opportunities.
