

VisitTracker

Visitor Tracking Solutions

The design above includes the following components:

- Power App Canvas – for check in and check out processes.
- Power Virtual Agent in MS Teams - for employees interactive. Ex. To register pass gate for their guests.
- Power BI – to monitor and track the guests.
- Power Automate - to automate the business process flows.
- Azure Cognitive Service (Form Recognizer).
- Azure WebApp resource - Docker Container
- Azure Blob Storage
- Data Base – Common Data Source
