

# Unleash the full power of cloud

## Survive and thrive in the digital economy

Most large companies lack the agility and technology to pivot at speed – and this allows start-ups to disrupt their industries.

The place that sold the most cars in 2019 is not even a dealership

Elon Musk says Tesla will begin offering its own insurance to customers next month

A new Marriott division goes head-to-head with Airbnb

When you're prepared for anything, and shaped to adapt and evolve, then you're Ready by Design.

## Realize the full power of the cloud

Avanade's Microsoft Azure Platform Services specialize in optimizing the cloud to give your business the competitive edge it needs to cope with the disruption of the digital economy.

We'll help you unlock the full value of your cloud investment, so your business is not just transformed, but also empowered, engaged and optimized.

### Avanade helps you to do this

Build innovative applications at speed

Liberate talent for innovation

Securely unlock the value of the Microsoft cloud

### ...so that you can do this

Create new digital business models

Get to market faster

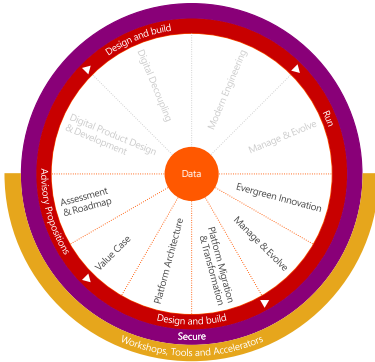

Increase your business agility

## Optimize to capitalize

Cloud transformation is different for every business and not everyone gets it right at first. Our flexible services will meet you where you are to take you through your cloud journey ensuring you meet your business and technical goals.

## Custom cloud solutions

Whether support for your aging technology is ending, or you only want to pay for the services you actually use, our packaged pathways deliver results faster than you ever thought possible.

### SAP on Azure

Turn SAP into an engine of digital transformation
