Simplify Healthcare

Benefits1™.Group

Drive Innovation for Group Benefit Plans Design

- Is your Group (Large, Midsize,Small (Non ACA)) and ASO benefit product configuration manual, repetitive, and error-prone?
- Is your review and approval process for products and documents manual requiring multiple hand-offs?
- Do your teams find it challenging to recognize and revise client/regulatory changes in the existing process?
- Do you use third-party services/tools that provide minimal visibility or ability to absorb last-minute changes?

Current State of Group Benefits Plan Management

Multiple sources of truth for benefits data | Manual data entry | Error-prone and non-compliant documents | Integration challenges with third-party applications

Our Solution

Benefits1™.Group — a Group market-focused configuration of the Benefits1™ platform, is a SaaS-based turnkey modular benefit plan management solution for Group health plans. It eliminates errors and inefficiencies in Excel grids-driven traditional benefits plan management by creating a single source of truth for all benefits data, auto-generating 508-compliant documents, and streamlining processes right from quotes to claims processing.

Challenge	Benefits1™.Group Capability	Value
Multiple Sources of Truth	Manage all product and benefits data in a single source of truth.	Seamlessly collaborate and design accurate Group benefit plans and easily manage Group filings for multiple states from one platform.
End-to-End Compliance	508-compliant document automation engine.	Achieve 100% compliance with Group plan materials, including SBCs, SOBs, Contracts, SPDs, Amendments, and Riders.
Collateral Management	Reuse the data setup and a single source of truth that helps with plan creation.	Easily handle regulatory, compliance, and market-driven changes to benefit plans, and improve member satisfaction.

Simplify Healthcare

Benefits1™.Group

Power a connected benefits journey with integrations

Extend the capabilities of Benefits1™.Group with a host of integrations to achieve end-to-end lifecycle management of your Group health plans.

.Actuary

Accelerate actuarial inputs to design changes and portfolio ideation.

.DataServices

Use a relational database to drive reports and analytics on the source of truth data or communicate it in a model that is consumable by target systems.

.IntegrationHub

Use API and events to communicate data in a model that is easily consumable by target systems.

.Sales

Enable sales and sales ops to customize benefits for groups via seamless integration with a sales CRM system.

.SelfServe

Enable interaction with the groups to present and gather approvals, and signatures on contracts prior to sales.

.SuperUser.Studios

Empower superusers to maintain design rules and workflow configurations while also establishing governance.

.Admin

Establish a source of truth for group data that may be sitting in disparate systems, excels, and/or unstructured formats.

Service1™

Deliver accurate and complete answers to members, providers, employer groups, and brokers/agents for benefit inquiries.

Claims1™

Enable automated claims configuration, code set level configuration of benefits, and testing to support claims adjudication.

Experience1™

Automate dynamic content generation and stream accurate, compliant, and consistent benefits data across the enterprise.

Benefits1™.Group enables Payers to deliver a connected benefits journey for their Group health plans.

Customer Testimonials

" They help teams to do their jobs better and faster by dummy-proofing various aspects of the product build. Benefits1™.Group enables and encourages consistent product builds, but allows for group-specific benefit requests.

**– CIO,
Health Plan**

" I found the team very enterprising, innovative, and committed, with the way they executed their responsibilities, overcame challenges, explored solutions, and solved problems.

**– Manager,
Benefits Implementation**

" What I appreciate about Simplify Healthcare is that they anticipate what will be needed to complete the entire project end-to-end, which minimizes late project life cycle budget increases.

**– Manager,
Benefits Testing**
