

# WE GET ENSURING YOUR ENVIRONMENT IS READY FOR WINDOWS 11.

CDW Amplified™ Endpoint  
Readiness Assessment for Windows 11

Is your environment ready to deploy Windows 11? Microsoft has made many changes not only to its user interface, but also to the hardware requirements. With strict hardware requirements like CPU, TPM 2.0 and UEFI Secure Boot, organizations are considering how many of their devices will be affected and how to reduce organizational impact when moving to Windows 11.

CDW's Readiness Assessment for Windows 11 engagement prepares you for the move to Windows 11 with minimal risk and end-user impact in the most efficient way possible. The readiness assessment helps you get started with Windows 11 by evaluating your hardware and software to identify any issues before upgrading. As part of the assessment, you receive a detailed report on your readiness and compatibility, along with recommendations for next steps in remediating any issues.

A Readiness Assessment for Windows 11 can help you achieve:

Operational  
Efficiencies

Agility

Reliability

## Orchestrating the Right Solution

CDW's Readiness Assessment for Windows 11 can provide your organization with the following benefits:

- Assess user and security features provided by Windows 11
- Explore new features and functionality of Windows 11
- Understand different editions and recommendations of deployment methods
- Perform software assessment to identify potential application compatibility issues
- Perform hardware assessment on device readiness in migrating to Windows 11; CPU, UEFI and TPM
- Provide knowledge transfer on best practices to identify and rationalize applications
- Generate a managed application list for future support
- Accelerate and improve migration to Windows 11
- Develop a roadmap for an enterprise-wide Windows 11 deployment
- Reduce migration risk by identifying incompatible applications and hardware and understanding different strategies to resolve
- Evaluate operating system software update and upgrade process to conform to new Windows 11 compliance

## CDW GETS MICROSOFT

CDW is uniquely qualified to design IT solutions that remove complexity and unnecessary costs from your organization. Our experts become part of your team providing the support you need, when and where you need it.

We help you navigate Microsoft's robust array of solutions. CDW is an end-to-end provider of cloud applications, solutions and services in public, private and hybrid cloud environments. Based on your business demands, we can help you plan, deliver and manage a flexible cloud solution tailored to your needs. We offer outstanding providers, risk mitigation strategies and dedicated, personalized expertise to deliver economic and operational benefits.

We get Microsoft and we can share our knowledge with you, so your organization can spend less time managing software and more time putting it to work.

CDW's full lifecycle of Services can support your organization no matter where you are on your journey
