### 3x Daily Multiple Backups.

Backups include three times daily snapshots of each user's data, and additional backups as needed at any time.

### Infinite retention.

Store an unlimited amount of data for no additional fees. Specify how long records should be maintained (days, years or infinite) to meet industry-specific compliance, as well as GDPR regulations.

### Restore and Export

Restore data without overwriting existing emails, files or site collections targeted at the same URL. Item level restore. Retrieve data in the original format with file and label structure maintained in the backup.

### Advanced search capabilities.

Easily find data with the advanced search option and restore individual items or entire folders.

### Point-in-Time Backups:

Daily snapshots of user's data, allowing you to browse a user's account at a specific point in time. Avoid data loss from ransomware by restoring to a point in time before an attack.
