**Neuminds AI Trainings and
Technology LLP**

Neuminds

AI Driven Company

Context

- Learning Management Systems before AI allow educational material to be digitized, managed, and, to a small degree, personalized
- LMS integrated with AI features presents an opportunity to provide immediate feedback and adaptive materials in order to complete the vision for individualized instruction and growth
- By reducing the administrative overhead of content management and personalized content, we can free up time for student care
- Neuminds is a start-up, and our initial goal is a two-way learning experience about what CW needs and what Neuminds can do to meet those needs

Welcome to Our Next-Generation LMS Platform

- GenAI Powered Platform
- AI Generated Courses
- Multilingual Content
- Personalised Experience
- AI Powered Progression Tracking
- Adaptive Testing/Assessments
- Conversational AI based Interviews
- AI Powered Career Counselling
- Cohort Based Learning

Neuminds is Different

We are not just another LMS platform.

What's Different :

We generate learning content (videos, readings, and tests) using GenAI

AI-Driven Course Generation by Lira Bot

Benefit:

Rapid content creation with minimal human intervention

Multi-Language Content

- AI-generated content (Video) in any spoken/Regional language
- Rapid Adoption to languages
- Natural Language Processing(NLP) based AI Counselling Session
- Interview Bots can change language on the fly as per users' comfort

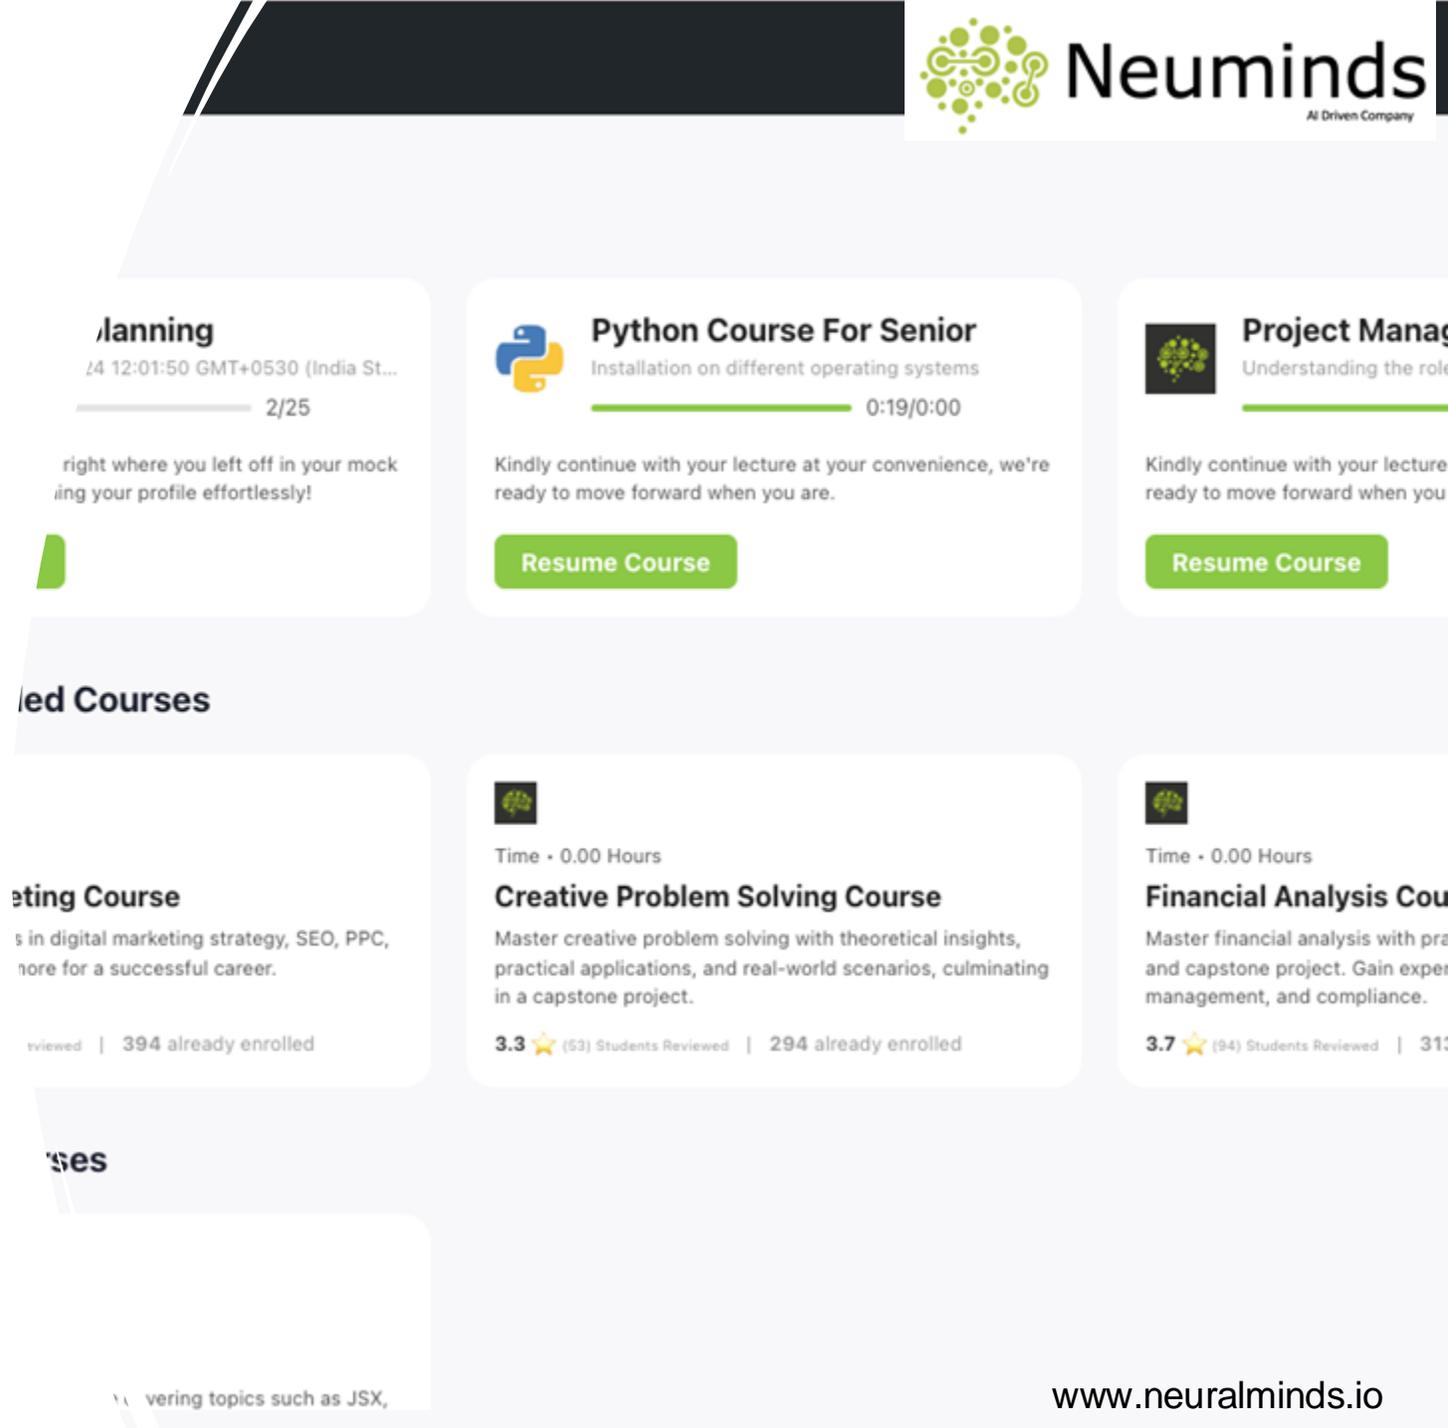

Personalized Learning Experience

Problem Statement: Low to no personal attention in learning

Solution

- NM Focus on learners' personalized learning needs
- Personalized, self-paced learning experiences tailored to everyone

Adaptive Learning

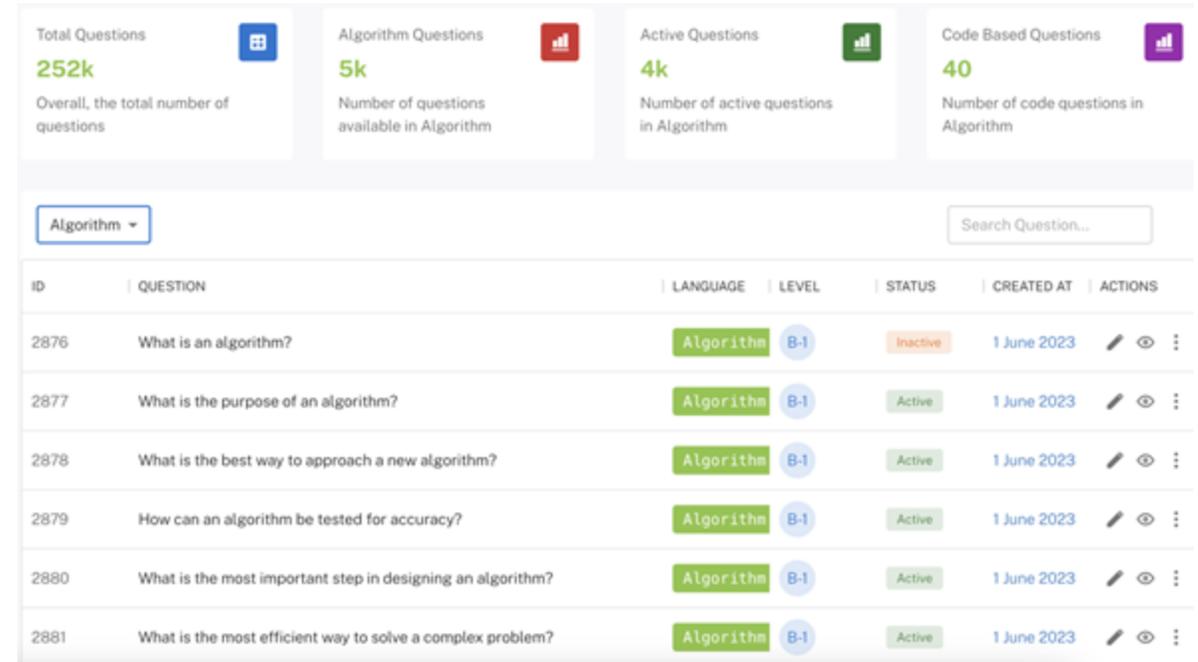

- AI continually adjusts to learner's progress
- Focus on areas needing improvement
- Adaptive learning curve and progress tracking
- Multi-Level summarization on course

Assessment Overview

1 Total Questions	00:00:50 Time Taken	18.18% Accuracy	2 Correct	9 Wrong
Question	Status	Time(sec)		
What is the output of the following code? <code>x = True if x: print("X is true") else: print("X is false")</code>	Wrong	4.06		
What is the correct syntax to access a module named "math"?	Wrong	4.51		
Which of the following is not a Boolean (True/False) operator in Python?	Wrong	2.45		
Which of the following is not a looping statement in Python?	Correct	2.35		
The _____ function is used to delete values from a set	Wrong	1.64		
What type of the following is returned when a function does not return a value?	Correct	2.98		

Exam Preparation/Adaptive Test

- Tailored content and practice exams
- Gamification on exams for learners
- Enhanced exam readiness
- Over 252K Questions already generated
- 5 Levels of Adaptive Testing
- New Questions can be generated at a click of a button

The dashboard displays four key metrics:

- Total Questions:** 252k (Overall, the total number of questions)
- Algorithm Questions:** 5k (Number of questions available in Algorithm)
- Active Questions:** 4k (Number of active questions in Algorithm)
- Code Based Questions:** 40 (Number of code questions in Algorithm)

A dropdown menu is set to "Algorithm" and a search bar is available. Below is a table of questions:

ID	QUESTION	LANGUAGE	LEVEL	STATUS	CREATED AT	ACTIONS
2876	What is an algorithm?	Algorithm	B-1	Inactive	1 June 2023	✎ 👁 ⋮
2877	What is the purpose of an algorithm?	Algorithm	B-1	Active	1 June 2023	✎ 👁 ⋮
2878	What is the best way to approach a new algorithm?	Algorithm	B-1	Active	1 June 2023	✎ 👁 ⋮
2879	How can an algorithm be tested for accuracy?	Algorithm	B-1	Active	1 June 2023	✎ 👁 ⋮
2880	What is the most important step in designing an algorithm?	Algorithm	B-1	Active	1 June 2023	✎ 👁 ⋮
2881	What is the most efficient way to solve a complex problem?	Algorithm	B-1	Active	1 June 2023	✎ 👁 ⋮

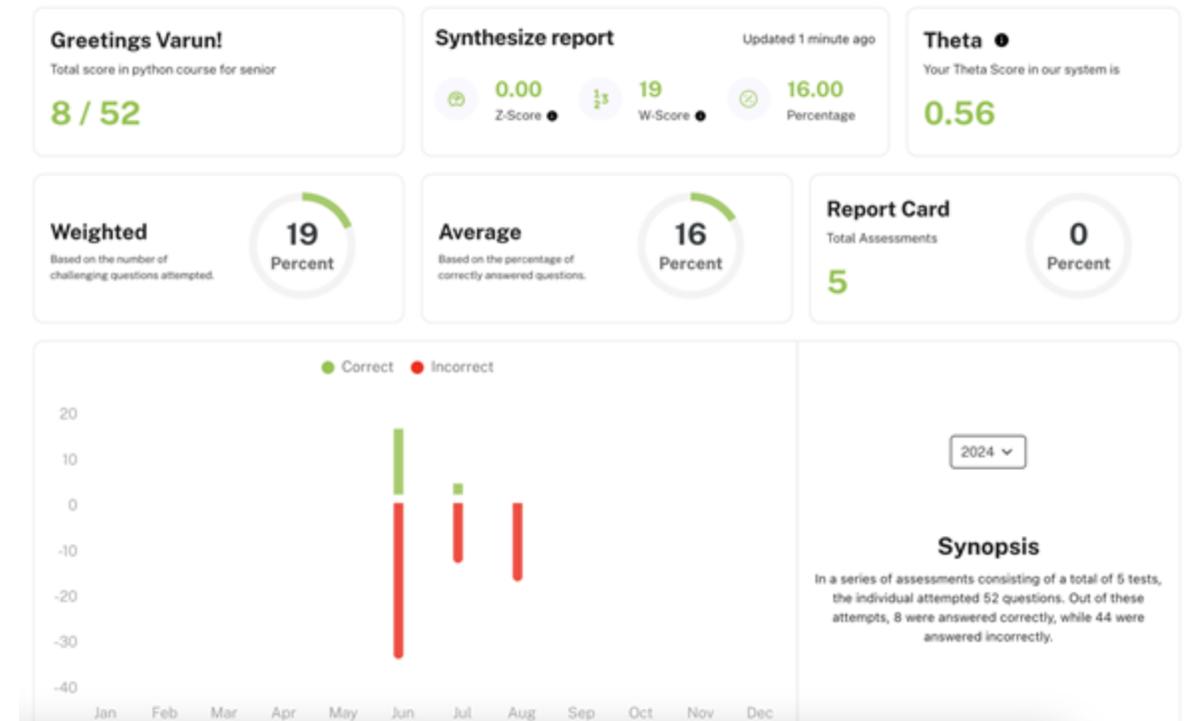

AI Interview & Career Counselling

- AI Interview and Career Counselling bots
- Real Time Conversation and feedback
- Upskill learners for job readiness

Comprehensive Insights

- Insights into learning habits and performance
- Personalized growth tracking
- Optimized study strategies
- Analytics dashboard

Cohort Learning

- Adaptive virtual/in-person classrooms
- Enhanced group learning experience
- Qualified Learners / Mentors can lead cohort
- Cohort Small group of 2 to a large group of 200+

BYOC (Bring Your Own Content)

- Convert your content to text
- Convert micro videos
- Generate adaptive assessments on your content
- Convert the content to any language worldwide
- Flexibility and customization
- Enhance content quality

Brains Behind Neuminds

Meet the masterminds behind our success, a united team driving excellence and making dreams a reality.
