A modern, simplified work environment on a small budget

The customer, a school from Lörrach, Germany, wanted to modernize its infrastructure and equipment to digitize school life.

CHALLENGES

Schools operate under government budgets that they must adhere to. In addition, the hardware they deploy must be as simple as possible to use to make everyday school life easier.

IDEAL SOLUTION

Based on Microsoft 365 subscription, the work environment of an employee is provided, managed, and further developed.

DESIRED OUTCOMES

The school now easily secures and manages all of its devices centrally by using Microsoft Intune.

intellectcom.

Microsoft 365 for Enterprise

intellectcom enables management of different operating systems, adapted to the way different user groups work, and provides modern security mechanisms for new ways of working to prevent risk.

1

Manage quickly, easily, and clearly

Independent and easy provisioning of modern devices for every user.

2

Leverage multiple systems

Management of different operating systems, adapted to the way different user groups work.

3

Increase security

Rely on increased modern security mechanisms for new ways of working to prevent risk.

Modern desktop provisioning and management as a service & Microsoft 365

Among the benefits of our offering: future-proof device deployments, modern hardware and software, understanding of user requirements, platform and device independence, new ways of working and new devices, focus on user mobility, and simple software and solution implementation.

Adopt a Modern Workplace

In the rapidly changing work environment, we can provision your Modern Workplace to keep pace.

Deploy up-to-date work equipment

We provide secure, reliable equipment, so every employee can do the best possible work.

Concentrate on the essentials

You can take care of the essentials and generate added value with our service.

Customer success: FES Lörrach win

Via its Microsoft licenses, FES was able to use Intune as a central administration tool to manage the devices used in homeschooling and keep them up to date. Microsoft Autopilot ensured a quick and easy device-provisioning process for both students and teachers.

Simple lockdown

"With the help of intellicom, lockdown was a breeze."

Effective work

"Unrestricted work is guaranteed at all times."

Rapid provisioning

"The quick provisioning of devices via Autopilot enables the flexible output of protected notebooks to students and teachers."
