More than just a software

A partner for your digital transformation

We are a tech expert

With digital signage in our DNA, our team is growing in the heart of the IoT Valley, the largest B2B IoT ecosystem in Europe.

Your partner in crime

Cenareo is a catalyst of experience and expertise through its partnerships with the communication and display ecosystem : integrators, installers and communication agencies with whom we operate throughout Europe.

A rock solid company : 30% growth in 2020

Our growth is supported by strong public and private partners (Caphorn Invest, BPI France), by our investments in innovation (35% of revenue) and by our R&D team which represents 45% of the workforce.

A cost effective solution

Our customers can count on the ergonomy of our solution and on the support and proactivity of our team to ensure a fleet of efficient screens without hidden costs.

Our intuitive

Digital signage solution

Our magic recipe

Glocal management	Give access to local users with confidence by managing different user rights for more granularity in their communication. Templates adapted to graphic charter allow to create content that reinforces brand image.
No black Screen	Prevent human error or network cut off from leading to a black screen by playing predefined content: capacity to plan campaigns in advance, defaut campaign displayed when no other campaigns are planned. A local storage on our player allows to continue displaying even without connection.
Issue alerting	Manage your fleet with peace of mind ! Receive alerts in case of incidents on a screen to take corrective measures quickly.
Easy planning	Simplify content management across complex screen fleet regardless of the number of users, sites, or granularity of content for a seamless delivery experience.
Fast deployment	Get an efficient tool adoption thank to an fast and easy deployment.
Network warrior and Data saver	Prevent network bottlenecks with smart content usage and bandwidth control.
