# NexMeter Real-Time Analytics-Based Decision-Making AI Platform

## Product title
NexMeter Real-Time Analytics-Based Decision-Making AI Platform

## Short description
NexMeter is a cloud-based, real-time analytics AI platform enabling customers to leverage the AI Platform usage data to make more customized, responsive, and impactful decisions in order to provide a better experience for the customers and avoid abusive usage of the AI Platform.

## Long description
NexMeter is a cloud-based, real-time analytics AI platform enabling customers to leverage the AI Platform usage data to make more customized, responsive, and impactful decisions in order to provide a better experience for the customers and avoid abusive usage of the AI Platform.

Build your real time analytics AI platform with 3 easy steps:

1. Connect Your Data Easily integrate NexMeter with your existing data sources, whether they're stored in databases, cloud services, or streaming platforms. Our flexible connectors ensure that you can tap into your data regardless of where it resides.
2. Define Your Metrics Leverage our intuitive metric builder to create custom KPIs that matter most to your business and your users. From simple counters to complex calculated fields, NexMeter gives you the tools to track and analyze the metrics that drive your success.
3. Integrate with Your App Seamlessly embed our responsive and customizable visualizations into your application using our robust SDK and API. Deliver a native analytics experience that aligns perfectly with your brand and user interface.
