

ORGANIZATIONAL SECURITY CORE ASSESSMENT

DISCOVER INSIGHTS INTO YOUR SECURITY
POSTURE AND MATURITY TO REDUCE RISK

The Core Security Assessment offers an in-depth analysis of your organization's security posture and IT environment maturity. Our expert-led evaluation combines comprehensive workshops and advanced data analysis to uncover hidden risks and vulnerabilities. Leveraging industry best practices and tailored maturity models, we provide actionable insights and a clear roadmap to enhance your security defenses. This assessment empowers you to prioritize investments, mitigate threats, and achieve your business objectives.

Our Core Security Assessment Includes:

A certified Microsoft Security Expert will collaborate with your team to assess the current state of your operational security environment. Through a combination of prescriptive workshop-style meetings and data-driven insights from tool-based data collection, we will provide an unbiased assessment of the following core areas of cybersecurity: Identity Security, Environmental Vulnerabilities, Framework Control Mapping, and Operational Threat Investigation and Response.

- Gain a clear understanding of your IT environment's maturity.
- Ensure your security strategy aligns with best-in-class approaches.
- Reduce risk and improve your overall security posture.
- Combine in-depth workshops with advanced data collection.
- Leverage industry best practices and proven frameworks.
- Uncover critical vulnerabilities and security gaps.
- Benefit from actionable intelligence and expert guidance.
- Maximize the value of your existing Microsoft investments.
- Follow a roadmap of recommendations.
