# TeleMessage offers a variety of comprehensive reporting, audit trails, traceability and archiving solutions fully integratable with your current data archiving system.

## Enterprise Number Archiver

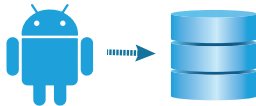

- A secondary enterprise number is provided to the employee
- TeleMessage app installed on employee mobile phone
- Personal number and communication remain private

## Network Archiver

- Mobile messages and calls captured by the mobile carrier's network
- A copy is sent to the TeleMessage archive server; No app required
- Direct carrier capture of mobile communication for archiving

## Android Archiver

- A lightweight app archives all messages and calls on the smartphone
- Use the native chat and phone dialer
- Capture all native Android text and calls on the phone

## WhatsApp Archiver

- Capture the native WhatsApp chats using the same WhatsApp interface and encryption
- Works in the background without any user intervention
- WhatsApp messages are uploaded to the TeleMessage server for archiving

## Comply with state and federal requirements and regulations
