

Project Ares Cyber Security Labs and Course Fees

Thank you for considering Project Ares as an education technology platform to deliver hands-on cyber security labs to your students. To help manage the expense, subscription costs for Project Ares can be shared by enrolled students through a course lab fee. There are two approaches to doing this and we can work with you to set up one or both depending on your student demographic and institution policies.

	Our Webpage – customized for you Click here to preview the webpage template	Your Bookstore – business as usual
Summary	<p>Using your logo and course description, we build a webpage that is connected to credit card processing.</p> <p>You point your students to the webpage to pay the course fee.</p>	<p>We provide a Project Ares description and fee information to your bookstore and they integrate it into their system.</p> <p>You point your students to the bookstore to pay the course fee.</p>
Payment Steps	<ol style="list-style-type: none"> 1. We issue your institution an invoice for the webpage setup charge and instructor Project Ares subscription(s) which includes early access so you have time to get familiar with the labs. 2. Students use a credit card and pay the ir Project Ares subscription fee associated with your course directly to us through the customized webpage. 	<ol style="list-style-type: none"> 1. Using standard bookstore systems with multiple payment methods including access to Financial Aid, the students pay the Project Ares subscription fee associated with your course directly to your institution just like any other lab fee. 2. We issue your institution an invoice for the instructor subscription(s) plus all the student subscriptions.
