Assessment Management

Create

Collaborative, role-based authoring environment for educators, testing professionals and subject matter experts (SMEs) to create questions, tests, exams, quizzes, surveys and course evaluations

Deliver

Secure delivery and proctoring options protect valuable content and ensure results integrity. Responsive design delivery means you author an assessment once - then deliver it to and device or browser

Analyze

Extensive range of pre-defined reports and analytics - including items analysis, survey reporting and more - that enable you to analyze, understand and share results with stakeholders

Measure Knowledge Skills and Attitude with:

- ✓ Exams/Summative Assessment
- ✓ Quizzes/Knowledge Checks
- ✓ Observational Assessments
- ✓ Diagnostic Assessments
- ✓ Pre-course Tests
- ✓ Post-course Tests
- ✓ Placement Tests
- ✓ Practice Tests
- ✓ Course Evaluations

Integration

Flexible APIs and support of major industry standards for interoperability with your LMS, CMS and other campus systems including:

- Canvas
- Blackboard
- And more
- D2L
- Moodle

Online Proctoring

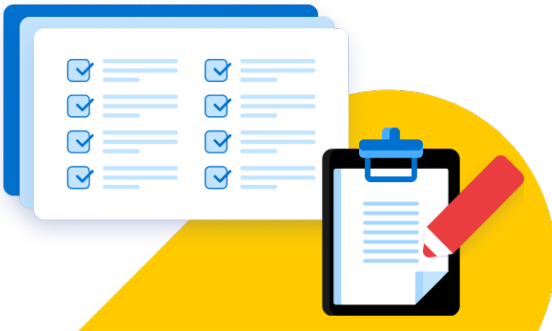

Provide students with the convenience of online exam delivery at home or work, with no special hardware to buy - all under the watchful eye of a proctor

Printing and Scanning

Create assessments that students can take online or on paper. Print your own bubble sheets; scan responses with any scanner
