About Our Technology

Leveraging over 25 years of industry expertise

Client Challenges

Common challenges in managing IT & related expenses

Solution offering

Bill Payment

Provide bill/vendor payment process automation for complete account payable

Invoice Management

Fixed, mobile, cloud, Ucaas, Saas etc
Leveraging AI and auto capture & parse

Business Intelligence

Data visualization for decisioning and predictive views of expenses

Audit & Validation

line-items verification & rate assurance
Dispute management and resolution

Inventory & MACD Management

IT assets – devices, circuits matched to HR/GL

Proof of Concept

Try before you buy....

Stand-up of a live instance with your data

Typical POC delivery strategy to include the following:

Client Delivery

Two to three vendors – *fixed, mobile, cloud etc*
Contract rate table and/or agreement
Sample allocation structure

TekAxiom Delivery

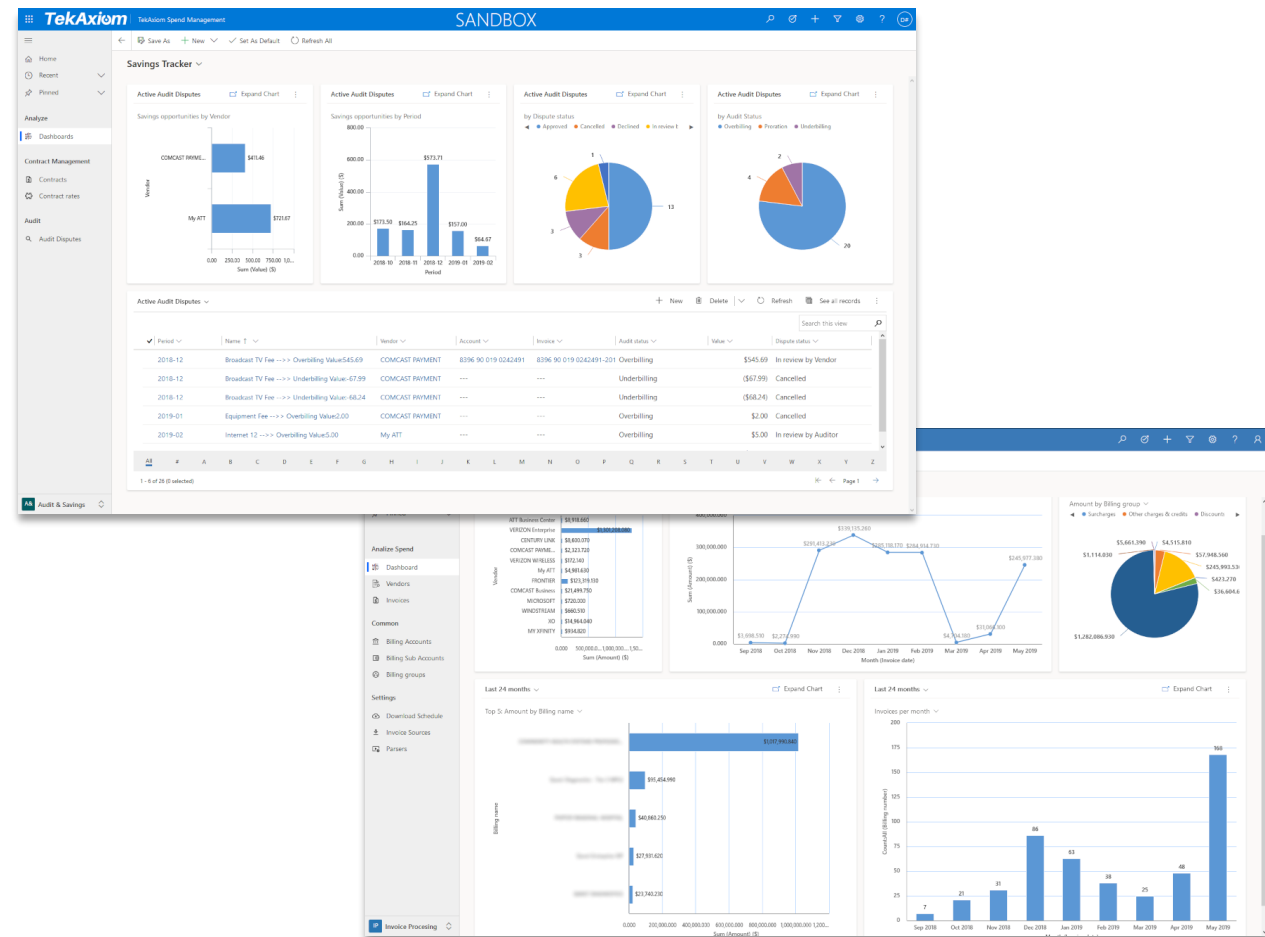

Working instance of the TekAxiom
Development of Microsoft BI reporting by client structure
Billing savings assessment including payment automation rebates

Powerful Business Intelligence

Fully customized Business Intelligence reporting tool

- Suite of standard reports
- Searchable functionality
- Share reporting via PDF or export to Excel

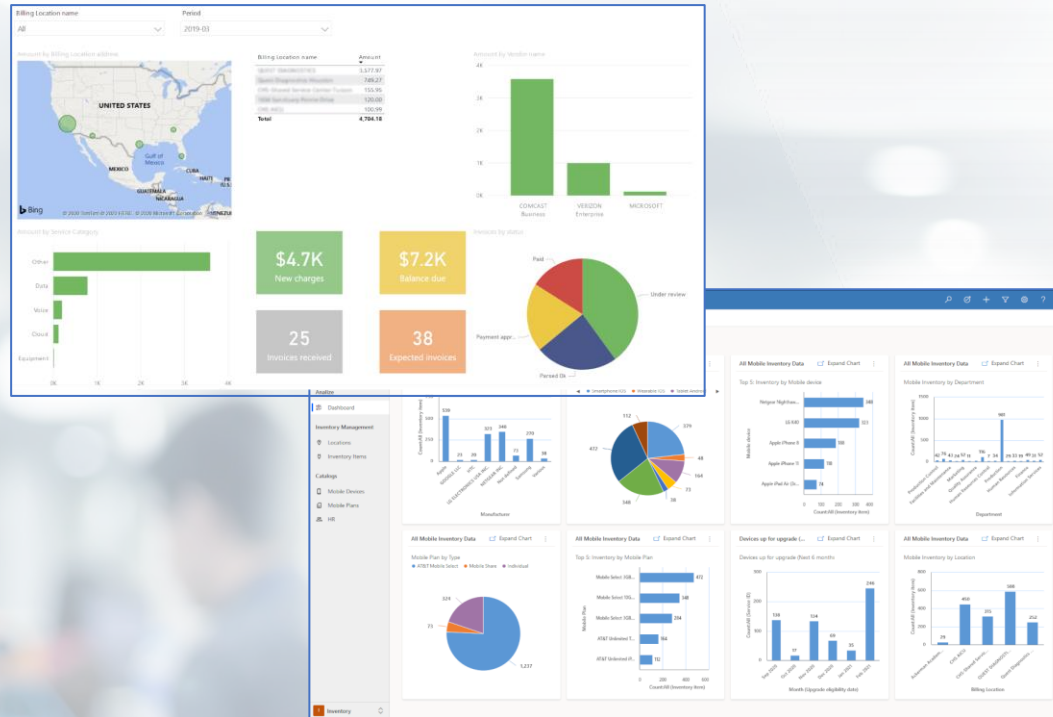

Advanced Audit & Variance

Leveraging company & industry knowledge

Professional Service, PS

Ability to incorporate PS from industry experts (e.g. audit, taxation, sourcing etc)

Standard Monthly Variance

Typical invoice set-up 3 month average

Customers AP

Utilize clients own AP experience & knowledge to increase efficiencies
