

MANAGED PLATFORM

Integrated Managed Platform for deploying next-generation applications with core open source technologies

The Instaclustr Managed Platform delivers a complete foundation for deploying your mission critical applications. We make it easy to deploy and manage the most advanced open source data-related technologies, in combination with the right infrastructure and cloud providers, advanced security, and a highly experienced Support team.

Our platform delivers a managed and tuned environment for data-layer open source technologies. This platform is a single destination for deploying, managing, and monitoring the foundational open source technologies for the most innovative, reliable, and scalable applications—all managed and operated in unison by the same provider.

A Managed Platform for Enterprise

■ Proven at Scale

We manage thousands of nodes and hundreds of clusters for our customers, across varied industries and deployment types.

■ Guaranteed SLAs

We stand by our zero downtime mantra with suitable SLA and contractual arrangements.

■ 24x7 Expert Support

We provide a dedicated 24x7 technical ops centre ready to deliver expert support when required.

■ SOC 2 and PCI-DSS Certified

Our processes and controls have been independently assessed as being compliant with the SOC 2 and PCI-DSS accredited processes and controls to deliver a highly secure and reliable solution.

■ Pure Open Source Technologies

Proprietary software for critical applications increases the risk of vendor or technological lock-in. Open source frees you from this never-ending cycle.

Engineered to deliver the fundamental requirements for deploying next-generation applications and solutions:

- Scale
- Performance
- Availability
- Integration
- Security

Instaclustr helps organizations deliver applications at scale through its managed platform for open source technologies such as **Apache Cassandra[®]**, **Apache Kafka[®]**, **Redis[™]**, **OpenSearch[®]**, **PostgreSQL[®]**, and **Cadence[®]**.

Instaclustr combines a complete data infrastructure environment with hands-on technology expertise to ensure ongoing performance and optimization. By removing the infrastructure complexity, we enable companies to focus internal development and operational resources on building cutting edge customer-facing applications at lower cost. Instaclustr customers include some of the largest and most innovative Fortune 500 companies.
