IT Operations Is Strained

SaaS and device growth increase operational challenges

No single source of truth for assets

Disparate tools and spreadsheets are used to track assets

Manual processes for onboarding & offboarding

Manual processes are prone to errors and time delays

Lack of access governance

Shadow IT and uncentralized SaaS purchases make access controls difficult to manage.

SaaS costs are rising

Average SaaS spend has increased **27% per employee YOY***

Centralized Control

360° Visibility of Apps & Devices

Josys instantly connects your employee data with their assigned SaaS licenses and devices inventory, providing real-time visibility and control of software and hardware assets.

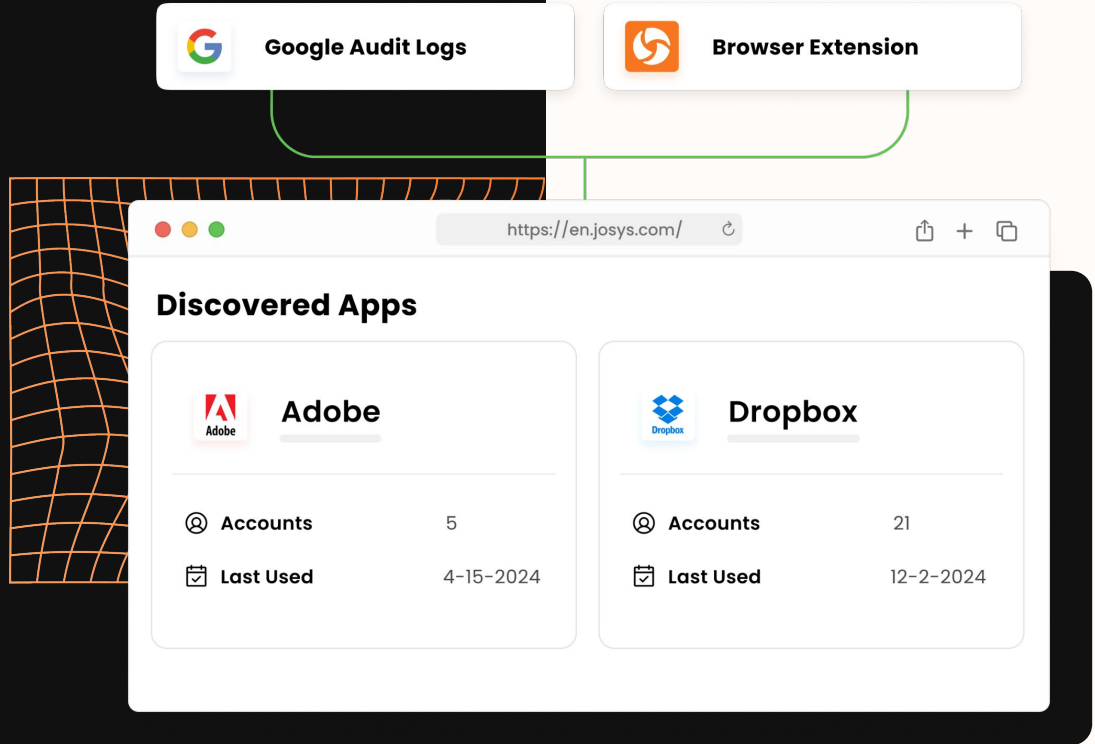

The screenshot displays the Josys web application interface. The top navigation bar includes the Josys logo, the text "Josys Corporation (Demo)", and a "Need help?" link with a user profile icon. A left-hand sidebar contains a navigation menu with items: Home, User Profiles (selected), Devices, Apps, Managed Apps, Discovered Apps (with a 99+ badge), App Catalog, Reports, E-store, and Inventory Surveys (with a "Run" button). The main content area shows the profile for "Jessica Lewis", who is "Onboarded". Below the profile, there are tabs for "Apps (38)", "Devices (5)", "Basic Information", "App IDs", and "App(s) Usage (27)". The "App(s) Usage" tab is active, displaying a table of applications. The table has columns for Name, ID, Status, Roles, and Start Date. The data rows are as follows:

Name	ID	Status	Roles	Start Date
Adobe	jlewis@gmail.com	Activated	Manager	12/06/2020
Dropbox	jlewis1989_drbpx	Activated	Accountant	16/08/2013

Salesforce	jlewis@gmail.com	Activated	Customer Service	15/08/2017

Govern Access & Shadow IT

Strengthen Governance

Improve your security posture with the ability to grant role-based permissions, identify shadow IT, and surface high-risk applications with a consolidated dashboard.

Optimize IT Costs

Manage SaaS Expenditures & Identify Savings

Prevent licenses leakage, identify underutilized licenses, manage device refresh cycles, and more.

The screenshot displays the Josys Corporation SaaS management dashboard. The left sidebar contains navigation options: Home, People, Devices, Apps, Managed Apps, Discovered Apps (13), App Catalogue, Reports (BETA), E-Store, Inventory Surveys (BETA), Scheduled Tasks (11), Security Preferences, and Settings.

The main content area shows the details for the **Atlassian** app. It includes the Atlassian logo, a 'Go to Managed Apps' link, and a 'Last refreshed at 2023-02-10 01:32' timestamp with 'REFRESH' and 'EDIT' buttons. The app details table is as follows:

Plan	Pricing	Subscription Start Date	Subscription Renewal Date	Manager	Vendor
Business	USD 50 Monthly Per Person	2023-06-10	2024-06-10	-	A12369

Below the app details, there are summary cards for 'Accounts (9)', 'Licenses (500)', 'Shadow Records (15)', and 'Monthly Expense (USD 25,000)'. A search bar and a filter dropdown (Device Status: Available, In-use, Unknown) are also present.

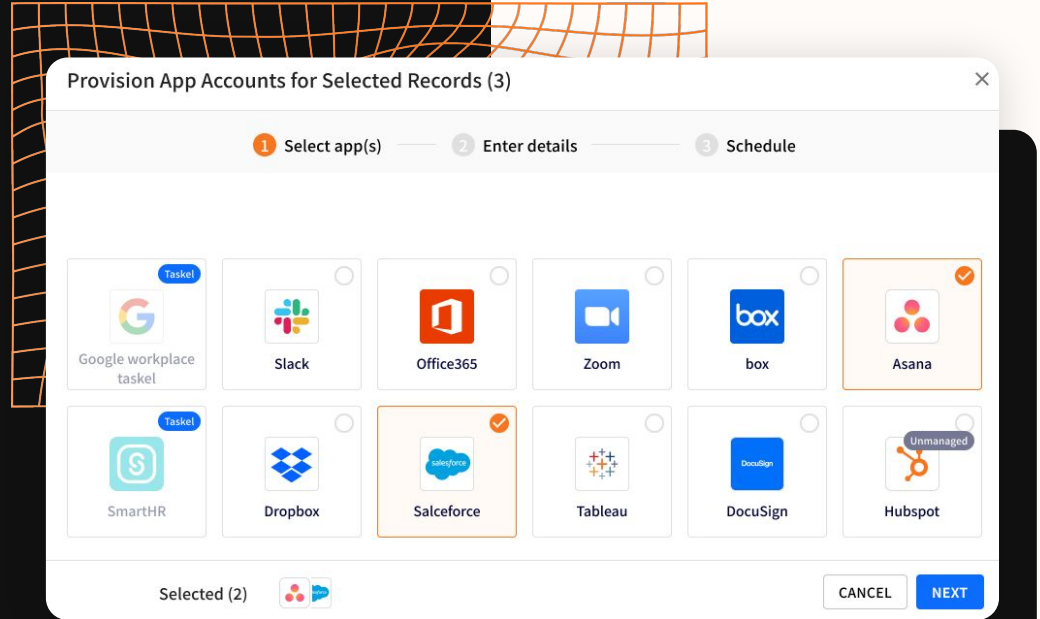

The main table lists users with their licenses:

Name / ID	Status	Roles	Personnel ID	Job Title	Provisioned On
BS Brooklyn Simmons binhar628@gmail.com	Activated	Manager	3562756	Team Leader	2023-12-12
DS Darrell Steward mvt.ast.nute@gmail.com	Activated	Accountant	3342756	Project Manager	2020-08-08
