

grado

A sensibly simple A+ school system

Grado's comprehensive setup empowers every user to accomplish transactions, access information, and generate reports as needed, when needed.

What is Grado?

Grado is a solution that keeps complex interconnected school processes easy for all. It records and collects information from all Grado-handled school transactions which are translated into deeper insights empowering users with coherent and meaningful data, every time.

WHY CUSTOMERS USE GRADO

- Fully automated online enrollment, fees assessment, and payment
- CHED-ready reports generation
- Data privacy compliant

Find favors, not flaws

- Effortless transactions
- Collaborative management
- Transparent accountability

*Easy to use,
quick to adopt.*

Break records, not ranks

- Real-time data
- Accessible consolidated records
- Relevant up-to-second insights

*Data that speaks,
results that matter.*

Long list of benefits, not queues

- Faster process handling
- Time-saving
- Multi-access, multi-tasking

*Excellent experience
for all users.*

“We decided to use Grado because of its simplicity and accessibility.”

Jonathan F. Aguilar
CCC, Asst. Administrator

“Grado is readily available for use, easy to adopt, and reasonably priced.”

Capt. Maximo Pestaño
Director, BMA

Grado handles multiple transactions in less time and translates them into meaningful data every time.

Optimized Code Development

- Grado can handle 200 concurrent users per second on a single-core 2.5GHz CPU with 512mb RAM and 2GB free storage.
- Quick transaction turnaround

Built to Excel Better and Smarter

- Grado on Microsoft Azure brings higher capacity handling and 99.9% uptime ensuring uninterrupted superb performance.
- Hassle-free faster online enrollment

Satisfactorily Compliant and Secure

- Grado is protected using industry standard encryption and runs compliant to National Data Privacy Act. It also generates data-ready reports meant to satisfy CHED-required submissions.
- Insights real-time, generate reports at any time.

ACHIEVEMENT A+, GRADO.

Our promise to you

Start and culminate every academic year registering a highly satisfactory overall user experience that spells excellence.

Let's get you started!

- Quick and easy Grado setup and configuration.
- Be Grado-ready and have your data migrated in a day!
- The Grado-readiness test evaluates your data and searches for irregularities such as duplicate records, and non-standard syntax and expressions.
- Even at the onset, Grado wastes no time so you can focus on where you thrive most: Quality Education.

Merit-aware institutions deserve a merit-seeking technology platform.

We don't deny it. Grado is a merit-seeker. Grado was initially developed to fulfill our own wishlists of an enrollment system should be if we were back in school. Today, as Grado qualifies to run on Microsoft Azure, we become more assured that Grado is meant to empower its users through quick process turnaround, accurate data insights, and relevant reports generation.
