# Software Main Modules

---

# System characteristics

## User experience

Imhotep is characterized by its unique and user friendly interface. We believe that simplicity is the key of our system.

## Responsive Design

Imhotep provides perfect and flawless compatibility between various platforms and devices.

## Security

Using the most advanced security algorithms, imhotep is hosted on Microsoft Azure, ensuring 24/7 protection and backup of your data.

## Ultimate support

Our 24/7 hotline and expert team are always happy to help you whenever you need and wherever you are.

## Continuous improvement

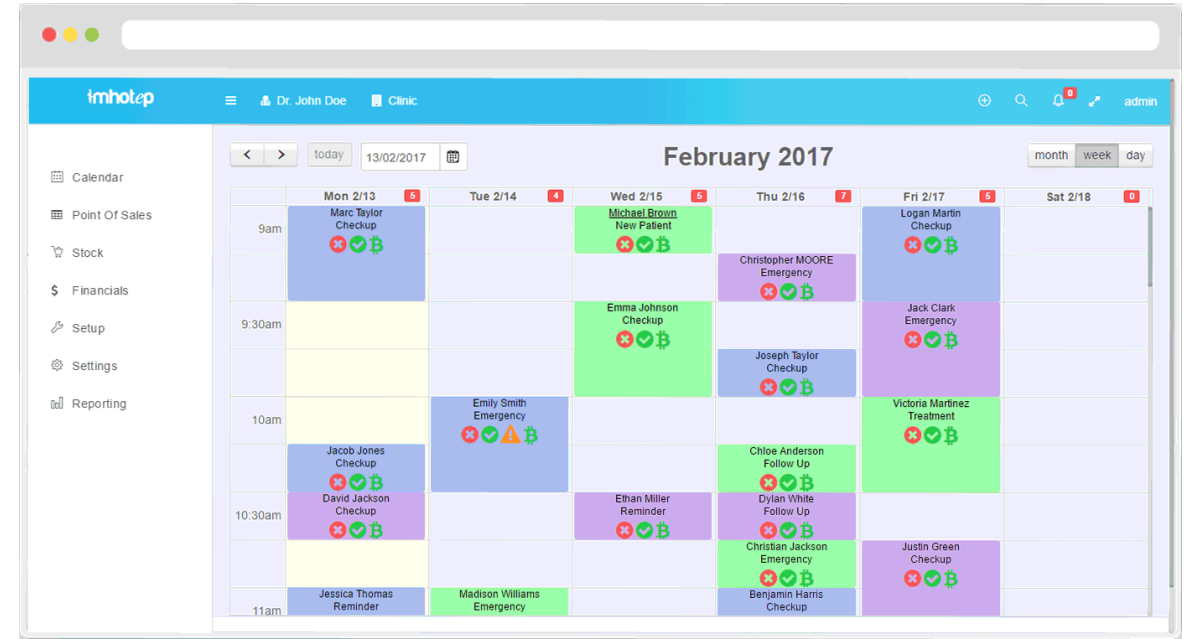

We are always seeking continuous improvement and updates for our clients, our European consultants are always providing us with the latest updates.

## Flexibility and performance

IMHOTEP is a dynamic system ready to be tailored as you need while maintaining the best performance and experience.

# Calendar and Appointments

- Dynamic and user friendly calendar
- Smart and color coded calendar
- Easy access to all modules from the calendar
- Email, SMS and on screen notifications for patients and doctors
- Doctors'/therapist availability and schedule
- Management and confirmation of appointments from the calendar

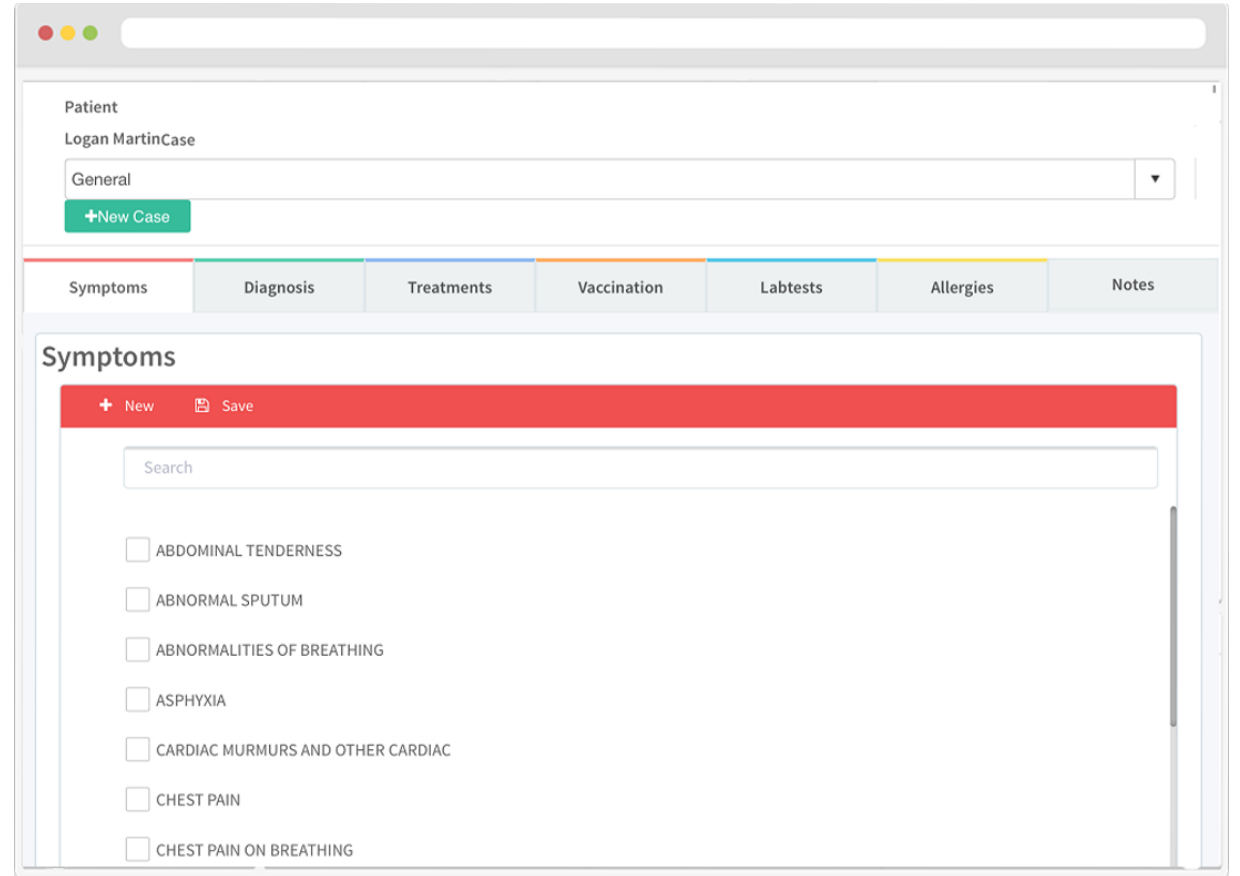

# Patient Medical File

- Dynamic patient card
- Any document can be attached to the patient card
- Tentative appointment reservations
- Dashboard containing all medical records
- Medical information can be shared within doctors
- Online profile management
- Online treatment follow up
- Medical history
- Mobile access
- Online medical templates request
- Online lab test result
- Patient dashboard
- Patient financials

The screenshot displays the 'imhotep' mobile application interface on a tablet. The app has a blue header with the logo, a menu icon, and a search icon. A sidebar on the left lists various functions: Visit Details, Patient File, Patient Face, Documents, Invoices, Payments, and Attachments. The main screen shows a 'Personal Profile' form with fields for First Name (Logan), Middle Name (Mark), Last Name (Black), File Number (001256A), Mobile (00961312345), Email (Loganb@gmail.com), Blood Type (AB-), Address (Beirut), Gender (Male), Date of Birth (6 July 1991), and Referred By (a dropdown menu). The form is titled 'Personal Profile' and has 'Save' and 'Deactivate' buttons at the top.

# SDTLC Module

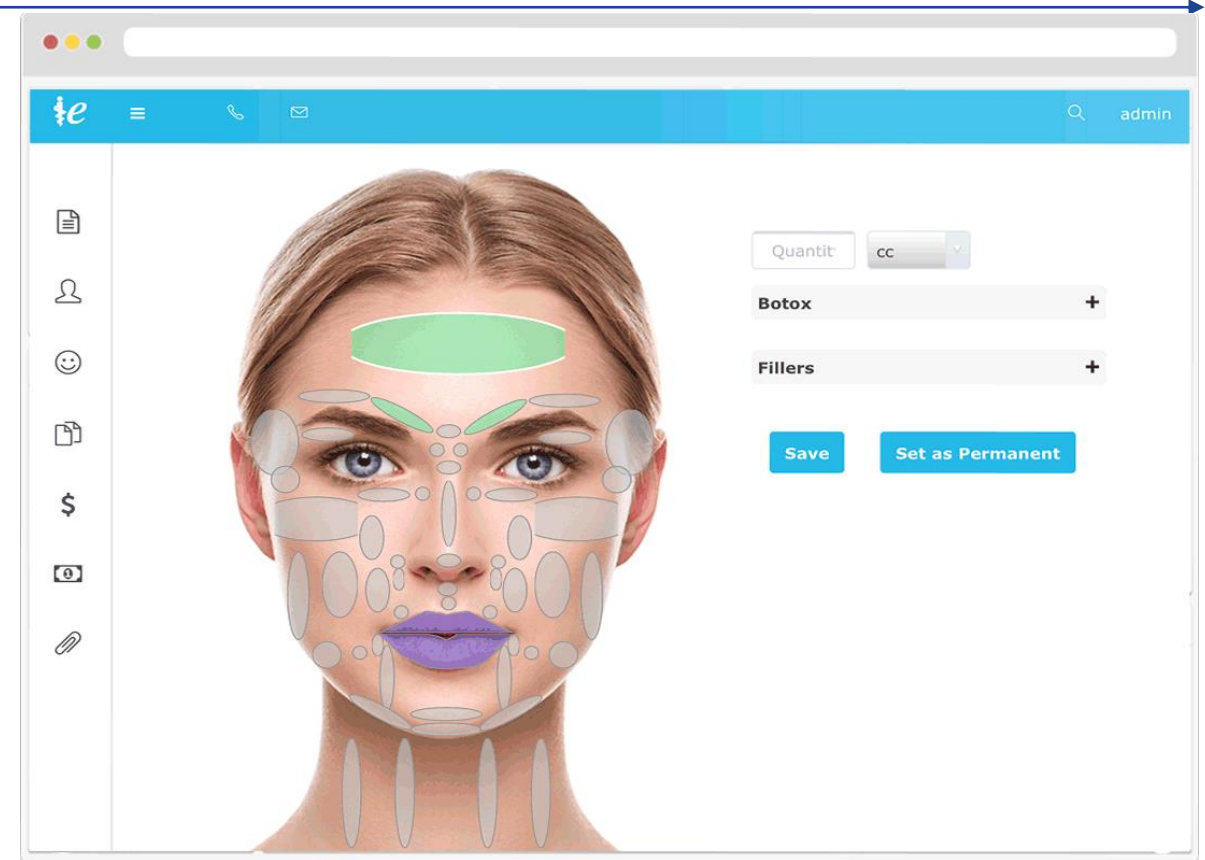

- Secure database
- All medical and physical activities are tracked from the smart calendar.
- Document attachments to all medical activities.
- Patients medical history access
- Patients' symptoms and diagnosis input during their visit.
- Clinical tests
- Generating medical templates and lab test requests
- Patient file and history sharing
- Imaging and lab test results
- Surgery management
- Generating treatment program
- Clinical Tests and dynamics documents

The screenshot displays a web application interface for the SDTLC Module. At the top, a patient's name 'Logan MartinCase' is shown, along with a 'General' dropdown menu and a '+New Case' button. Below this is a horizontal tab bar with categories: Symptoms, Diagnosis, Treatments, Vaccination, Labtests, Allergies, and Notes. The 'Symptoms' tab is currently selected. Under this tab, there is a red header bar with '+ New' and 'Save' buttons. A search bar is positioned below the header. A list of medical symptoms follows, each with an unchecked checkbox: ABDOMINAL TENDERNESS, ABNORMAL SPUTUM, ABNORMALITIES OF BREATHING, ASPHYXIA, CARDIAC MURMURS AND OTHER CARDIAC, CHEST PAIN, and CHEST PAIN ON BREATHING.

# Stock & POS module

- Creating and managing inventory items, non-inventory items and expenses
- Creating and managing vendors
- Creating and managing purchase orders
- Creating and managing items receiving
- Stock adjustment page for internal and external items consumption
- Inventory items transfer between clinics/centers and departments
- Managing expenses
- Managing commissions
- Front office POS for selling items and services
- Automatics inventory items redemption from the POS
- Automatic Stock inspection on selling
- Generating invoices
- Receiving payments
- Generating patient/customers statements

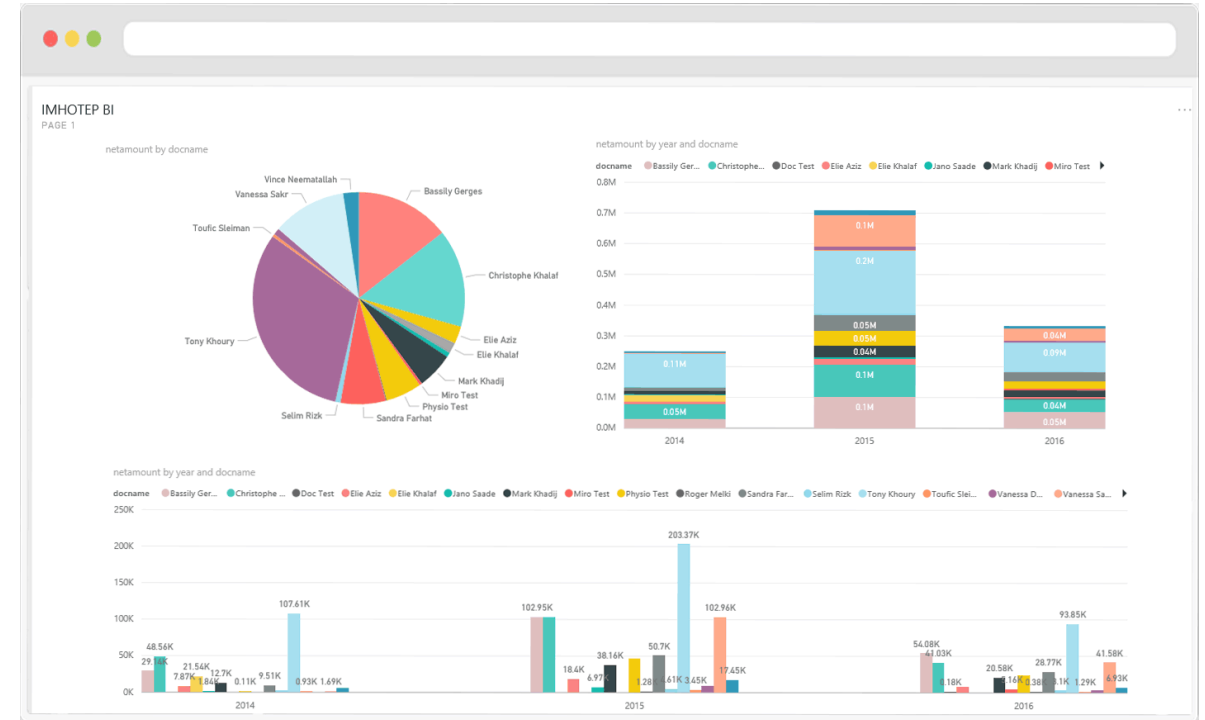

The screenshot shows the 'mhotep' POS system interface. At the top, there's a header with the 'mhotep' logo. Below it, there are fields for 'Invoices', 'Select Patient..', 'Select Doctor..', and a date field set to '2/14/2017'. A 'Categories' dropdown is set to 'Category 1'. Below this, there are three buttons: 'Acne Gel 30ML', 'Foaming Cleanser', and 'Vitamin C Scrub'. The main part of the screen is a table with columns: Item, Discount, U.P, T.P, Qty, S.Qty, and Vend. The table contains three rows of items: 'Acne Gel 30ML', 'Foaming Cleanser', and 'Vitamin C Scrub'. Below the table, there's a summary section with 'Total', 'Discount', 'VAT', and 'Grand Total'. The 'Grand Total' is \$406.8. There are buttons for 'Close Invoice', 'Generate Invoice', 'Discount', and 'vendors'. At the bottom, there's a checkbox for 'Taxable' and a field for 'Item Discounted : \*'.

Item	Discount	U.P	T.P	Qty	S.Qty	Vend
Acne Gel 30ML	-	\$62	\$186.00	3	3 Unit	- +
Foaming Cleanser	-	\$38	\$114.00	3	3 Unit	- +
Vitamin C Scrub	-	\$53	\$106.00	2	2 Unit	- +
Total					\$369.09	
Discount					-	
VAT					\$36.91	
Grand Total					\$406.8	

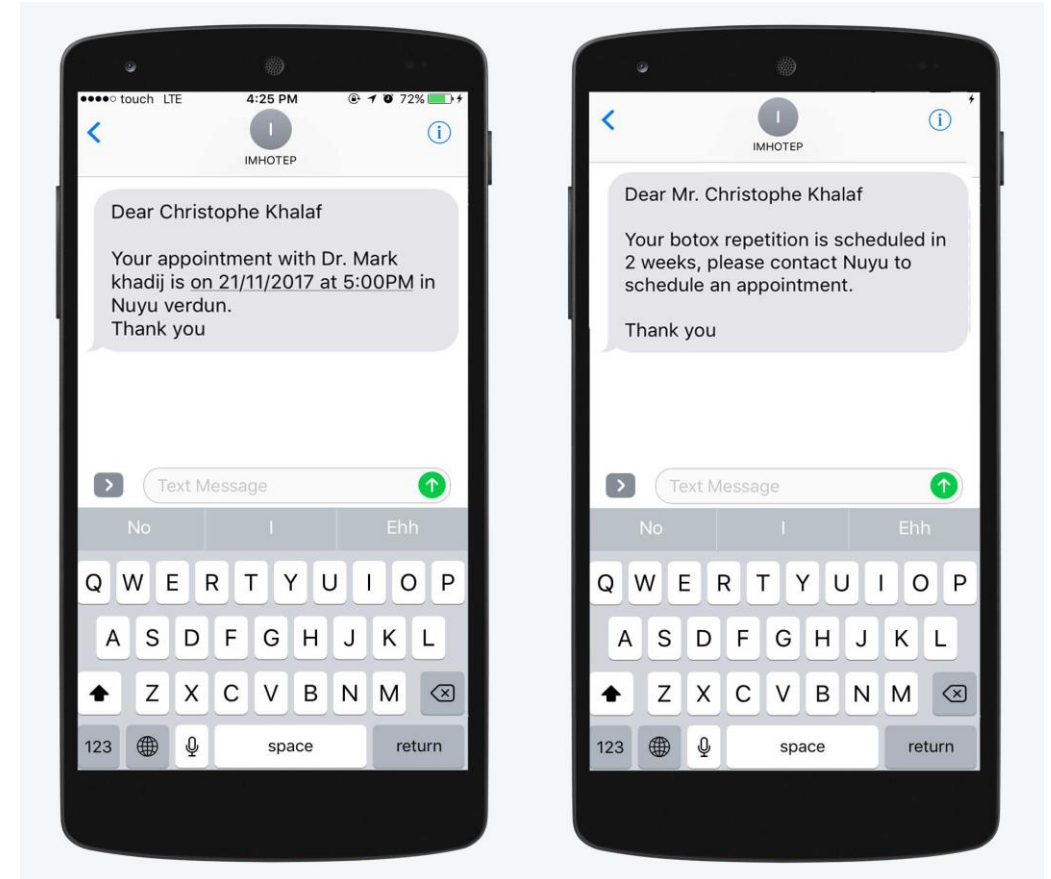

# Advanced Reporting and BI

- integration with Microsoft Power BI
- Accessing reports online and from any mobile device
- Tracking financial activities
- Tracking customers visits and appointments
- Generating statistics
- Forecasting and planning
- Managing multiple locations from one centralize database
- Building customized reports

# Notifications and Reminders

- Appointment notifications for patients
- Doctors SMS notifications
- Doctors and therapists reminders
- Create your own reminders and Notification plan
- Notifications By email and SMS

# Patient Mobile Application

- Take and view Appointment
- View Medicines
- View Labtest Results
- Medicine reminders
- Push notifications
- Upload Images and results
- Clinics Directory
- Doctors Directory

# Doctor Mobile Application

- View Appointments
