

# DataDx™ puts practice leaders in the driver's seat.

Harnessing the power of real-time data, DataDx™ provides immediate and actionable business intelligence. The result? Your practice will make better decisions and achieve higher performance levels.

# In today's information age, is your practice keeping up?

With shifting business trends, environmental changes, and a slew of industry regulations, running a medical practice is more challenging than ever. Our state-of-the-art dashboard and real-time reporting help you instantly access and understand key performance indicators. In addition, our benchmarking tools help you know where your practice stands — and how to get out in front.

## HOW DATADX™ WORKS

- Automates and streamlines data acquisition & reporting
- Provides real-time analytics & benchmarking data
- Connects cost drivers with revenue opportunities
- Offers critical insights into cash flow & other key performance indicators

## BENEFITS OF DATADX™

- Establish accountability metrics
- Improve internal collaborations and efficiencies
- Capture insights into revenue and investment opportunities
- Drive boardroom discussions to ensure informed decision making
- Develop a culture of continuous performance improvement

# Take the next step to a healthy future.
