LIGHTHOUSE

Prism

Prism managed service uses proprietary AI to deliver big data analytics technology with expert insights and workflow consulting.

Overview

FASTER DOCUMENT REVIEW

Accelerate review with predictive recommendations, actionable data trends, and portfolio-wide knowledge transfer.

COST SAVINGS

A contextualized analysis for defensible and more precise document reduction

CROSS-MATTER CONSISTENCY

Coding consistency within matters and across your entire portfolio.

Leverage AI and the future of analytics

Legal teams rely on manual review to avoid risk, leading to inconsistent coding, long timelines, re-reviewing identical documents regardless of relevance, and high costs. Further, modern data is complex and surging in volume, only exacerbating these challenges.

The ability to perform contextualized analysis within and across matters unlocks efficiency – from attorney work product reuse to more precise predictive coding. The solution must be built to handle modern data volumes, complexity, and changes.

Prism leverages the future of analytics:

- Analyzes data across a client's entire case portfolio

- Enables reuse of attorney work product from prior matters

- Provides 100% document accountability

- Unlocks substantial document review savings

- Pinpoints privilege and sensitive information

Why Lighthouse?

For more than 25 years, Lighthouse has been providing global security and compliance advisory solutions combining decades of industry experience and best practices with leading edge technology driven approaches to help organizations confidently achieve scalable, practical success.

Our unique expertise in security, compliance, and legal together with deep expertise in the Microsoft M365 and Purview technologies results in a full breadth of Microsoft security and compliance offerings and a track record of collaboratively supporting Security, Compliance, IT, and Legal business decision makers for measurable results.
