Development and Test

It's a bad idea to use your production environment for dev & test. The Cloud Sandbox has everything you need while keeping your production workloads safe.

- Deploy any workload for development and test purposes.
- Spin up environments on demand, turn them off when not in use and save on your Azure consumption bill.

Hackathons

- Test your teams' skills using live Microsoft Cloud subscriptions with guided or completely unguided hacks.
- Pre-prepared cloud environments make it simple to work in multiple duplicate environments without impacting the other teams

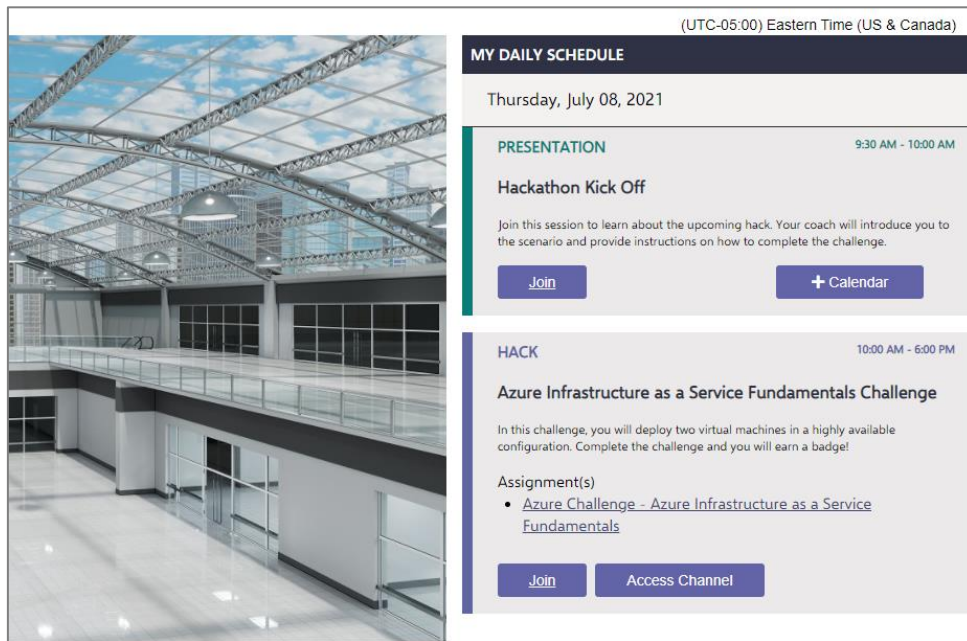

Technical Training

- Self-host your own Microsoft Cloud hands-on labs.
- Host the content, or leverage from GitHub and use the subscriptions only
- Never mess with Azure passes again!

Integrates with OneVenue

Opsgility Cloud Sandbox integrates directly with OneVenue. Simplifying cloud access for your event attendees.

(UTC-05:00) Eastern Time (US & Canada)

MY DAILY SCHEDULE

Thursday, July 08, 2021

PRESENTATION 9:30 AM - 10:00 AM

Hackathon Kick Off

Join this session to learn about the upcoming hack. Your coach will introduce you to the scenario and provide instructions on how to complete the challenge.

Challenge Guide

Azure Infrastructure Fundamentals

Overview

As the new IT Professional for Contoso Mortgage, you are responsible for setting up infrastructure in the cloud. Contoso Mortgage has chosen Microsoft Azure as their cloud provider of choice. The closest Azure region to their headquarters is Central US.

To try out the service, you have been asked to setup a new highly-available web server farm in Contoso Mortgage's Azure subscription.

Most Common Supported Services

Azure

Azure AD

Teams

Dynamics 365

Intune

Azure DevOps

Defender

Power Platform

Stay Engaged!

Keep your attendees engaged with fun activities like trivia and speed networking complete with a leaderboard for attendees to attend sessions and complete activities

Speed Networking Room

Friendly reminder, please be respectful and courteous to your fellow attendees and check out our general rules before you get started

Instructions

How it works

1. Enter your topic
2. Write a little about yourself
3. Join the Queue
4. You will be paired with someone who matches your topic for 5 mins
5. If your connection is not working out you have the ability to leave the conversation and get paired with another person
6. Be respectful and courteous and have fun!

Join Chat

About you

What topic would you like to discuss?

Meet and greet your colleagues!

Take some time to join some speed networking sessions and get to know who you are working with better.

Number of participants: 2-4
Topic is available for discussion between 8:00 AM-5:00 PM CST

What would you like people to know about you?

Join Queue

Paired Attendees

Chat attendees will show up here once you connect

FUN-ISH

10:15 AM - 10:30 AM

Cloud Trivia

Test your knowledge of the cloud and earn points!
Points to earn for trivia: 25
Time limit: no time limit

Badge Support

The screenshot shows a 'Messaging' window with a message from Michael Washam. The message text is: 'Congratulations! You have earned the following badge:'. Below the text is a circular badge with a trophy icon at the top left. The badge contains the text 'Microsoft Azure 101' in a blue circle, 'CERTIFIED' in a white horizontal bar across the middle, and 'Skill Me UP' with an orange flame icon and 'AZURE CHALLENGE' below it. The message continues with 'Azure 101 Certified from Skill Me UP' and 'Click [here](#) to claim your badge.' At the bottom of the message is a 'REPLY' button and an 'OK' button.

- Attendees that complete the challenges will get an Acclaim badge!
- Custom badges for your organization are also supported.
