

Power BI is a suite of business analytics tools to analyse data and share insights.

MICROSOFT POWER BUSINESS INTELLIGENCE

Power BI dashboards provide a 360-degree view for business users with their most important metrics in one place, updated in real time, and available on all of their devices. With one click, users can explore the data behind their dashboard using intuitive tools that make finding answers easy. Creating a dashboard is simple thanks to over 50 connections to popular business applications, complete with pre-built dashboards crafted by experts that help you get up and running quickly. And you can access your data and reports from anywhere with the Power BI Mobile apps, which update automatically with any changes to your data.

WHAT WE OFFER

Analytics solutions for your whole organization

Your whole business on one dashboard

With **Power BI on the web**, monitor your important data from across your organization and from all of the apps you rely on.

Create stunning interactive reports

Power BI Desktop gives you tools to transform, analyze, and visualize data. Share reports in seconds with your organization using Power BI on the web.

Consistent analysis across your organization

With **SQL Server Analysis Services** on-premises and **Azure Analysis Services** in the cloud you can easily build robust, reusable models over your data to provide consistency across reporting and analysis in your organization.

Easily embed BI and analytics in your app
