# Zensar's Global NAS solution in Azure

Zensar is a leading digital solutions and technology services company that specializes in partnering with global organizations across industries on their Digital Transformation journeys. Zensar has a global footprint and worldwide presence in US, Europe, Africa, and APAC with over 35 sales and delivery locations across industries.

WHAT WE OFFER

Zensar Global NAS solution in Azure Global NAS solution with Azure NetApp Files enables performance at scale, non-disruptive upgrades, seamless extension to public clouds and flexibility in deployment models at aggressive RPOs and RTOs. The solution leverages the following Azure services to provide a strategic NAS foundation -

1. **Azure NetApp Files:** Delivers a seamless method to move and manage NFS workloads in the Azure Cloud. Customer can quickly and easily add multiprotocol workloads as well as build and deploy both Windows and Linux file-based applications, even for legacy environments.

2. **Azure Site-to-site VPN**: Azure VPN gateways provide cross-premises connectivity between customer premises and Azure.

3. **Azure Policy:** Backup based on user defined policies.

4. **Azure Monitor:** Comprehensive solution for collecting, analyzing, and acting on telemetry from your cloud and on-premises environments.

5. **Azure Portal:** Management interface for all Azure resources.

Zensar's Global NAS is differentiated by its agility and the flexibility to work with any storage technology and any workload as per client needs.

See what customers are saying:

We were delighted to have Zensar as a trusted storage partner. Their end-to-end Global NAS solution helped us transition to a highly intelligent and centrally monitored storage infrastructure. The team worked closely with us and used the best practices and industry standards in the implementation and execution phases. Thanks to them, we were able to bridge the gap between business continuity and disaster recovery.

Be future-ready

Continuous innovation from Microsoft supports your development today, and your product visions for tomorrow. With 1,000+ new capabilities in the past year, you can build on the latest advancements in AI, blockchain, Kubernetes, containers, and databases to keep you ahead of the curve.

Our enterprise grade analytics solution outperforms the competition, costs less, and is fully compatible with your existing development, BI, and data-science tools.

Operate hybrid seamlessly

On-premises, in the cloud, and at the edge—we'll meet you where you are. Integrate and manage your environments with tools and services designed for hybrid cloud.

Enhance security, simplify access, and set smart policies across your different environments with a single-identity platform trusted by 90% of enterprises globally.

Build on your terms

You have choices. With a commitment to open source and support for all languages and frameworks, build and deploy how you want to. Take advantage of the full-featured, integrated development environments with built-in support Visual Studio and Visual Studio Code, the most popular IDEs trusted by 15M+ developers.

We embrace open source, drive innovation through collaboration, and contribute back to the community.

Trust your cloud

Get security from the ground up, backed by a team of experts, and proactive compliance trusted by enterprises, governments, and startups.

With a $1B+ investment in security R&D and 3,500 cybersecurity experts, security is foundational for Azure.

Microsoft Azure

Microsoft Azure is an ever-expanding set of cloud computing services to help your organization meet its business challenges. With Azure, your business or organization has the freedom to build, manage, and deploy applications on a massive, global network using your preferred tools and frameworks.
