

# EHC Advisory Service.

Essential planning and design for success in the cloud

## Week 1

### Business Objectives

- Cloud strategy
- Impending events
- Licensing
- Growth strategy
- Patient care initiatives

## Week 2

### Epic Discovery

- Environment list
- Hardware lifecycle
- 3<sup>rd</sup> party applications
- Licensing
- Network topology
- Upgrade strategy
- Firewall rules

## Week 3

### Architect & Design

- Security
- IAM
- Network
- Monitoring
- BC/DR strategy
- Governance

## Week 4

### Migration Plan

- Cross project planning
- Event coordination
- Upgrade coordination
- Hardware coordination
- Milestone development

## Week 5

### Access Flexibility

- Architecture diagram
- Epic configuration
- Migration plan
- Remediation plan
- Business case
- TCO model
