

# Simplified SharePoint & Teams Adoption and Governance

Work with Business Cloud Integration to elevate productivity and reduce sprawl with automated provisioning and governance

Faster deployment, less IT effort,  
more productivity.

Faster than requesting a SharePoint Site with a support ticket and waiting for IT to action.

Average number of organisations with active SharePoint and Teams sprawl that needs review

Customisable templates for SharePoint Online and Teams

# Client Stories with Casper365™

The screenshot shows a Microsoft Customer Story page. At the top, there's a navigation bar with Microsoft logo and various product links. Below that, a large banner image features a person's hands interacting with a futuristic interface with a target icon and a percentage sign. A dark box on the left of the banner contains the headline: "PZ Cussons boosts deployment speed by 60 percent thanks to Casper365 SharePoint management, 'an absolute game-changer'".

Below the banner, the article content is displayed. On the left is the PZ Cussons logo. To the right, the date "January 8, 2024" and a "Print" icon are visible. A "Learn More" button is also present. The main text describes PZ Cussons as a British multinational manufacturer and introduces Casper365 as an intelligent Microsoft Azure-based automation solution for SharePoint governance and lifecycle management. It details how PZ Cussons struggled with SharePoint site sprawl and how Casper365 helped centralize management and governance. A sidebar on the left lists categories like Customer, Partner, and Industry.

**Without governance, site sprawl and abandonment run rampant**

PZ Cussons is an international consumer goods business founded in 1884 that champions the

Microsoft Customer Story-PZ Cussons boosts deployment speed by 60 percent thanks to Casper365 SharePoint management

Create Fully Customisable Templates for how you do business

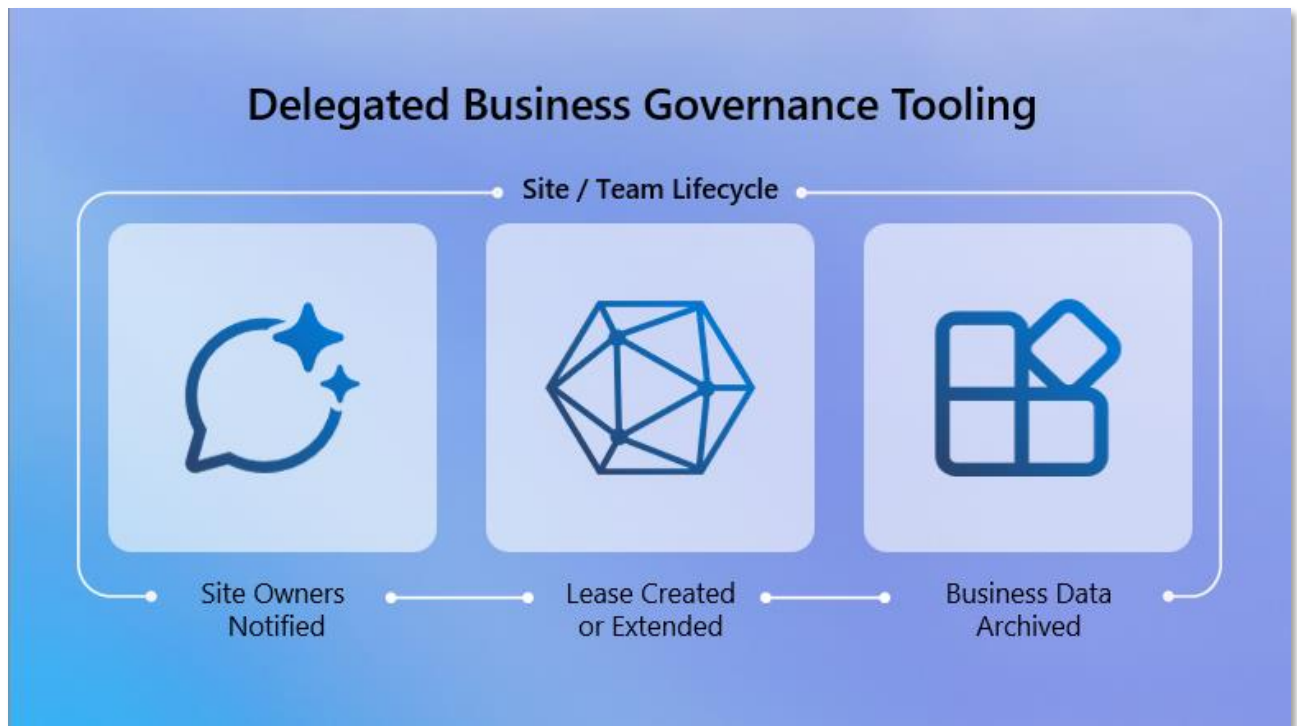

Give Permissions to users to request sites / Teams

Add Approvals step for Governance / IT

# Casper365™ Governance Centre

## Control Data Retention

Automate your Business Data Governance

Ensure Site Owners Extend, Archive or Delete

Keep your tenant sprawl free

The screenshot displays the Casper365 Governance Centre interface. The top navigation bar includes the Casper365 logo, the user name 'Sharon Sumner', and a 'Business Cloud Integration Ltd' dropdown. The main content area is titled 'Governance Centre / Lifecycle Policy Management' and features a dashboard with six site status cards: All Sites (0), Active Sites (0), Sites Expiring Soon (0), Sites Expired (0), Sites Archived (0), and Sites On Legal Hold (0). Below the dashboard, there are tabs for 'My Owned Sites', 'All Sites (Admin)', 'Config Rules (Admin)', and 'Tasks'. The 'All Sites (Admin)' tab is active, showing a table with columns for Site Name, Site URL, Owner(s), Last Ren..., Deadline, Lease Pe..., and State. The table currently displays 'No records available'. The left sidebar contains a navigation menu with items like Dashboard, Services, Catalogue, User Management, Partners, Offers, Migration Planning Centre, and My Migrations.
