

# WE GET OPTIMIZING YOUR DEVICE MANAGEMENT IS CRUCIAL TO MEETING YOUR BUSINESS NEEDS.

## CDW Amplified™ Endpoint Assessment of Microsoft Intune

CDW's Assessment of Microsoft Intune is a professional service that provides a comprehensive review of your current Microsoft Intune environment, including policies, settings and configurations. We offer customized recommendations to optimize your environment and meet your organization's specific needs around security and compliance requirements. Our service ensures improved efficiency of IT operations, reduced costs and a better user experience. Leverage our expertise to get the most out of your investment in Microsoft Intune and implement industry best practices to ensure business success.

An Assessment of Microsoft Intune can help you achieve:

Reduced  
Risk

Reliability

Operational  
Efficiencies

### Orchestrating the Right Solution

CDW's Assessment of Microsoft Intune is crucial for businesses seeking better control over company data, reduced security risks, improved compliance and enhanced user experience of their remote workforce. The assessment includes identifying potential risks and gaps in security and compliance, evaluating the configuration and settings of Intune, and providing recommendations for improvements.

The main characteristics of our service, along with its benefits, are:

- **Comprehensive review:** Our team conducts a comprehensive review of your current Microsoft Intune environment, including its configuration, policies and settings.
- **Best practices:** Our recommendations are based on industry best practices for mobile device and application management, ensuring that you are using Microsoft Intune in the most effective way possible.
- **Customized recommendations:** We provide customized recommendations for how to optimize your Microsoft Intune environment to better meet your specific needs and goals.
- **Security and compliance:** We evaluate your Microsoft Intune environment to ensure it is meeting your organization's security and compliance requirements.
- **Cost analysis:** We provide a cost analysis that compares the costs of your current Microsoft Intune environment to the costs of alternative solutions.
- **Integration:** We evaluate how your Microsoft Intune environment can integrate with other systems and applications, ensuring you are getting the most out of your investment.
- **User experience:** We evaluate how your Microsoft Intune environment is impacting the user experience for your employees, and make recommendations for improvements.
- **Ongoing support:** Our team provides ongoing support and guidance to help you implement our recommendations and optimize your Microsoft Intune environment over time.
- **Expertise:** Our experts have extensive experience working with organizations of all sizes and across a range of industries, making us best in class to deliver this service.
- **Time and cost savings:** By optimizing your Microsoft Intune environment, you can improve the efficiency of your IT operations and reduce costs over time.

### CDW GETS MICROSOFT

CDW's partnership with Microsoft is founded on our deep expertise and extensive experience in delivering solutions that meet our customers' unique needs. Our team of certified Microsoft Intune experts has the knowledge and skills to help you optimize your environment and ensure that it aligns with your organization's specific needs, as well as security and compliance requirements. By leveraging our experience, you can expect:

- Customized recommendations to optimize your environment and improve efficiency
- Reduced costs through improved automation and streamlined processes
- Improved user experience for employees through better device management and security
- Guidance on implementing industry best practices and compliance standards

Our partnership with Microsoft allows us to stay ahead of the curve in terms of technology advancements, giving our customers access to the latest innovations in device and application management. Trust CDW to help you get the most out of your Microsoft Intune investment and drive business success.

## Services Overview

CDW's Assessment of Microsoft Intune service provides a comprehensive review of your current Microsoft Intune environment, customized recommendations for optimization and ongoing support to help you implement those recommendations and realize the benefits of a more optimized environment. By leveraging our expertise, you can ensure you are getting the most out of your investment in Microsoft Intune, while also improving the efficiency of your IT operations and reducing costs. The following is included in an Assessment of Microsoft Intune engagement:

| Services   | Included |
|--|----------|
| <b>Assessment:</b> Evaluating the existing environment and readiness for Microsoft Intune features. This typically includes analyzing current device management solutions and processes to manage updates, applications, security and provisioning for end-user devices.                             | ✓        |
| <b>Envisioning:</b> Collaborating with your team to understand how they work today, and how Microsoft Intune features/products fit into your workflows by developing high-value use cases.   | ✓        |
| <b>Success Planning:</b> Working with the appropriate project team members and stakeholders in a series of formal and informal sessions to discuss the development and execution of the customer knowledge transfer, communication and support requirements that will benefit the organization most. | ✓        |
| <b>IT Success Sustainment:</b> Uplifting your support staff to continue the success that is built out of the rest of the engagement through administrative knowledge transfer and best practices to continue threat response remediation processes.  | ✓        |

## CUSTOMER SUCCESS STORY

**Organization:** A global manufacturing company  
**Employees:** 5,000+

**CHALLENGE:** The global manufacturing company was experiencing challenges with its existing Microsoft Intune environment. The company needed to improve the efficiency of its IT operations and ensure security and compliance requirements were being met.

**SOLUTION:** CDW's team of Microsoft Intune experts conducted a comprehensive review of the company's existing environment and provided customized recommendations to optimize it to meet their specific needs. The team also provided ongoing support and guidance to help the company implement these recommendations.

**RESULT:** With CDW's Assessment of Microsoft Intune, the company was able to improve the efficiency of its IT operations and ensure compliance with security and compliance requirements. The customized recommendations helped the company optimize its Microsoft Intune environment to meet specific needs and goals, while also reducing costs and improving the user experience for employees.
