

24/7 MANAGED DETECTION AND RESPONSE SERVICES

with eGroup Enabling Technologies ThreatHunter MXDR Services

Cybercrimes are on the rise and cyber insurance requirements are tightening. Trust a 9x Microsoft Partner of the Year Award winner to manage your risk.

eGroup Enabling Technologies provides ThreatHunter: consulting, configuration, and ongoing support to help organizations protect, detect, and respond to risks. We are a Microsoft Managed Security Service Provider (MSSP) for organizations that wish to have ongoing support and monitoring of Intune, the M365 E5 security stack, and Sentinel. Our team has 24/7 security analysts who monitor, investigate, triage, and work with clients to resolve incidents within the environment. Our approach of combining managed Intune along with Managed Extended Defense & Response (MXDR) and Sentinel, provides Complete Endpoint Protection.

SOLUTION BENEFITS

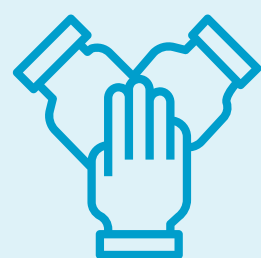

Regularly tune Defender & Sentinel settings to address latest risks and best practices

24/7 monitoring enables you to focus on other tasks rather than trying to scan logs

Automated responses to minimize your involvement in reacting to incidents

Peace of mind that your data is stored safely in your tenant, securely overseen by our team

Why should you enlist an experienced partner to manage your security?

AN IMPROVED SECURITY POSTURE, WITHOUT THE NEED TO HIRE, TRAIN, AND RETAIN

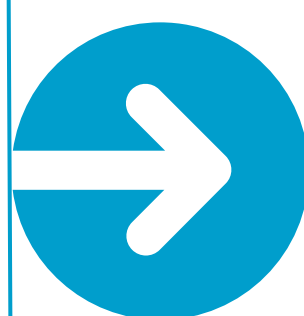

SECURE, COMPLIANT ENDPOINTS AND EARLY INSIGHT INTO THREATS

AN EXTENDED TEAM OF EXPERTS WHO WORK TO UNDERSTAND YOUR BUSINESS
