

Developing the Whole Child with the FUNecole® eLearning Solution

DIGIPRO EDUCATION LTD

The FUNecole® eLearning Solution for Primary Schools (K-6)

Digipro Education Ltd, a Learning Design Education organization established in 1990, is the developer and distributor of the FUNecole® solution around the globe. The FUNecole® eLearning solution fosters the disruptive transformation of elementary school education for global collaboration and social cohesion.

WHAT WE OFFER

FUNecole®
DEVELOPING THE WHOLE CHILD™

The FUNecole® solution supersedes by far any other Education Technology solutions, as it provides teachers with “**Just-in-time**” tutorials animated videos, games, interactive instructions and assessments. The FUNecole® teaches and empower students to apply their knowledge of Microsoft programs, web applications and coding software in unique activities that focus on developing the whole child.

The FUNecole® solution offers students with “**Ready-to-Use**” real-world, authentic, age-appropriate, engaging learning experiences, that enable them to communicate their opinions, arguments and reflections. FUNecole® students involve themselves in interesting transdisciplinary projects, in a fully supported and inspiring learning environment.

The FUNecole® solution incorporates Science, Technology, Reading & Writing, Engineering, Arts, Math and Social Sciences, in a dynamic **STREAM** approach. Teachers can differentiate **STREAM** lessons based on the individual class dynamics, integrating the appropriate technology tools for higher student engagement and achievement.

The FUNecole® solution is a recognized good practice in Innovative Learning and Creative Teaching by the JRC/IPTS of European Commission. FUNecole® is endorsed by the Cambridge International Assessments for the Cambridge ICT Starters Initial and Next Steps Qualifications. The FUNecole® solution has the Seal of Alignment of the International Standards in Technology in Education **ISTE**.

WHAT OUR CUSTOMERS ARE SAYING

“This technology has been very beneficial to my students and its ability to be tailored to a wide variety of platform and applications is amazing. Students develop the skills necessary to apply their understanding to the development of the Microsoft computer-based solutions...”

– Alicia Verweij, Gifted Teacher, West Side Elementary School, Mississippi, USA

WHY FUNecole®

BE FUTURE READY

Today's powerful tech-students need to be ready to face the 4th Industrial Revolution challenges by developing higher order thinking skills, such as Creative expression, Innovative Design and Ethical problem solving. Students, as future professionals, need a broader and diversified range of skills that complement the basic literacy, numeracy and science. The need to directly connect school education with the workforce demands is among the most crucial issues in education today. Education is therefore called upon to formulate robust learning solutions that meet the challenges of an accelerating changing era and workforce transitions. The unprecedented uncertainties of COVID19 have pushed forward, even more so, the need for comprehensive eLearning solutions, such as FUNecole®, to enable students to be "Future Ready".

BUILD ON YOUR TERMS

Teachers need to show students how to evaluate the information veracity, reason logically and apply learning to new situations. The FUNecole® turnkey eLearning solution allows them to collaborate and design together dynamic STREAM experiences that promote entrepreneurial education. Students are inspired to "see" the wider picture, to pinpoint on opportunities, to think critically and creatively, to take risks, to collaborate and to make connections while solving problems. The FUNecole® solution nurtures the Social Emotional Learning and develops student's self-awareness, self-confidence, and decision making, throughout the FUNecole® Six-year- journey of knowledge™.

OPERATE HYBRID SEAMLESSLY

No matter how skillful and experienced, teachers are lacking behind in the methodologies for eLearning. Using the FUNecole® online platforms, teachers support the online organization of student interactive activities and assessments according to international curriculum standards, while monitoring student progress and engagement.

TRUST YOUR CLOUD

With the increasing demand resulting from the Covid19, providing reliable and performant infrastructure to serve the clients is of vital importance. High availability and high reliability are achieved with the migration of FUNecole® to Microsoft Azure's application service. Azure's databases ensure built-in high availability and dynamic scaling of the FUNecole® eLearning Solution.
