Evaluation records may be visible only to you.

You can define a calculation formula between several parameters for attributing the final grade.

The screenshot displays the 'Listagem de turmas' (Classroom List) interface. The main area is a grid with columns for teachers (David Pereira, Francisca Ribeiro, João Gomes, Manuel Barros, Martin Duarte, Nuno Amaral, Olga Gonçalves) and rows for evaluation criteria. A calculator window is open, showing the formula: $Apresentação\ trabalho\ 1 + Ficha\ de\ avaliação / 2$. A dropdown menu is open over a cell, showing options: Insuficiente, Suficiente, and Muito Bom. A summary grid at the bottom right shows the final grades for each teacher using star icons.

All the records you made throughout the lessons will be summarized in the evaluation grid so that the moment of assigning the grade is facilitated and in conscience.
